Subject: Rate Hike

As a FPL customer, I am opposed to any new rate changes unless they are to lower the rates.

I am a senior citizen on a limited budget and take into consideration any and all new monetary expenditures.

I take advantage of the On Call credit available to save energy for FPL. I also pay extra for the Power Surge Protection and the FPLES Utility Guard programs. There is a transformer box in my backyard, for this, I must maintain clearance around the

There is a transformer box in my backyard, for this, I must maintain clearance around the area to assure access by FPL employees when necessary. I have a loss of privacy due to this. I would like to have a fence on that side of the yard, but a double wide gate would be an extra expense

An increase would mean a disruption in payment of other obligations which would then incur stress and hardship that is not healthy for the elderly living in the state of Florida. There are many seniors needing assistance and this rate increase may very well make those seniors even more distressed.

Please oppose the rate hike on this electric energy issue.

Sincerely,

Barbara G. Sanchez
