To clarify my testimonial, if the rate increases and equity returns reported by AARP are correct, the numbers are excessive when the cost of living index has frozen social security for the last two years and best rate of return on bank CDs is in the 1-3% range. I understand the need to maintain and modernize infrastructure, but that must be tempered against the client's ability to pay.

For the consideration of the Florida Public Service Commission.

John Mitchell

Dear Ms Stauffer,

Please accept my testimony to deny FPL its outlandish request for a rate increase my electric bill by 23% and give FPL's equity shareholders a return ranging from a preposterous 11.5-12'5%.

Thank you,

John J. Mitchell
