Dear Sir,

We are writing you to let you know what a hardship a rate hike would do to us and I am sure many others on a fixed income. We have just retired last year and receive a social security check of 1700 a month, and because I am disabled we get a check for 740.00 for that. That is suppose to sustain us through the month. Because I could never work we have tried to make it but barely survive. We pay 1100.00 for rent and 400.00 car payment. Plus we have a car insurance payment and utilities. So you can see there is already no money left for anything else. Please consider others before lining your pockets. Your rate increase means no grocery money for us.

Thanks Melody Sherrid
