Subject: rate increase

I am a senior who has been on disability for 6 years. I can't afford an increase in my power bill, especially an increase like what you are talking about. It seems like you and every other company wants to raise their rates up to 25% except our Social Security in which we get no raises. I'm sure this raise in rates will effect everyone, but especially the seniors who are on fixed budgets.

Please reconsider this increase and leave the rates were they are or decrease them. You already make a decent profit.
