Subject: FPL increase request Doc. 160021-E1

Dear Mr Stauffer,

I am writing to let you know my discontent with the request of FPL absorbent rate increase **docket number 160021-E1** .

I remember back when FPL was requesting customers to donate to their solar project. While I am all for alternative clean energy, it gave me pause to think that such a request would be made when FPL was flush with cash.

Again they are requesting a rate increase when they are already positive cash flow of 11% above and beyond their needs. This when inflation is only 2%. How out of touch and decadent a request on the backs of many elderly that make a choice between lighting or lifesaving drugs.

Large increases like this early have an astronomical compounding effect on future rates. It's an effect that had Einstein in awe.

Keep the \$\$ in the Florida citizens families rather than the privileged few executive and share holders pockets.

Best Regards;

Steve Bertelli
