I STRONGLY ENCOURAGE the PSC to DENY FPL's rate increase request.

These guys are feeding at the public trough! They are already making an obscene profit in excess of 10% on investment: I'd sure like to be getting that return on my savings, checking, IRA, and mutual fund accounts!

Their executives are making millions ... just for running a risk-free company.

Almost none of those funds will go to service enhancements, disaster preparedness, or energy innovation.

Also I'd like to see you subtract all that money that FPL is pouring into their campaign to confuse us customers and get a monopoly on solar power generation!

Plus, I'd like to see a REFUND of the \$1.8 billion or so that they stole from us customers to pay for that nuclear generation facility that they never built!

I urge this Rick Scott-appointed, gutless PSC to, for once, stand up for us customers - by denying this rate increase.
