Subject: Rate Inc. 160021E1

This is what happens when there is a protected monopoly. There are no options available and as such consumers are helpless and left only to their government's ability to control them. We need our elected, and I stress the "elected", to step up and protect us from such greed. The poorest people in the state, in terms of ability to pay such increases, are our seniors. They will be the ones hard pressed with such an increase. Fuel costs are at their lowest for power generation. Why is such an exorbitant increase required other than for profits. It needs to be stopped.
