Docket #160021-E1

I strongly disagree with rate increases on my service at my small home in Boynton Beach. My bills already average \$250 per month. This is for an 1,100 sq. ft home running a very new energy efficient central air unit. My rates are quite high enough I believe as it is. I know the wages the employees make at utility companies is already very high as it is, having two members that have served decades in large electric utility companies in the ARK-LA-TEX area. They are very well to do from their wages as a result of absorbatant rates that have already been charged over the years.

As an AARP member I am on a fixed income and do not have room for constantly increasing utility bills. Please do not allow rate increases. As well the part of town i live in, in Boynton Beach, many go without power and many more with no A/C as the rates are already unaffordable.

Matt Epperson, Boynton Beach FPL Customer
