Subject: FPL requested rate increase

Dear Ms Carlota Stauffer,

I am opposed to FPL's requested rate hike. Our electric bills are outrageous enough already. Every month when I go to pay my electric bill FPL is requesting we join in and support their efforts to build areas with solar panels and when you go into the website you are requested to pay a monthly amount to BUILD the facility, then they intend to have you pay for the electricity generated.

There are many elderly people and low income workers who live here and will not be able to afford food or medication for themselves or their families. No one in this country should have to make the decision to eat or obtain medication over a conglomerate who takes every opportunity to rape and pillage our most vulnerable citizens for more money.

I am opposed to this requested rate hike as not in the best interest of the people of the state of FL.

Thank you for taking the time to hear my concerns.

Sincerely,
Diane Guptill
