Subject: docket number 160021-E1 Rate increase

Please be aware that any rate increase for power will mean that I, as a senior of 70 years old, will have to choose between using electricity or my food or my medication. I am on a very fixed and very small social security income, am unable to work at a job any longer and have no family or friends to supplement my income. Please consider the many senior citizens like myself who cannot afford this increase in costs of electricity without having to give up life sustaining medications or food.

Sincerely,

Salle Marple
