Subject: FPL Unjust Rate Hike.

As a Florida resident for over 20 years I refuse to accept FPL'S request to raise rates when they have a projected \$1.6 Billion profit and are not required to spend their rate hike on clean energy like solar. Even with their most recent investment in solar Florida the Sunshine State lags far behind the other states in the production of clean energy. The outrage of this unnecessary rate hike is it is not tide to protecting our environment. For this reason alone I hope you will reject FPL'S short sided request. Respectfully, David S.Holland.
