Subject: FPL rate hike

To Ms. Carlotta Stauffer, Commission Clerk
Florida Public Service Commission
Docket #160021-E1

I see no reason to increase FPL base rates unless they provide service enhancements. Rate increases should for the customers in the form of service enhancements, disaster preparedness or energy innovation. They should not be a means to provide extra returns to investors.

Because you have no competition as a power provider for the public, it is grossly unfair to gouge the customer for shareholder profits. You need to be looking out for the common good, with an eye on the predictions for climate change effects in Florida. Extra money should be invested for projected long term needs, not short term gains.

Sincerely,

Katherine D. Doerr
