As a senior citizen with a limited income, I request your denial of FPL's unseemly, unnecessary rate increase. This increase is to allow their investors to make even more return than the \$1.6 Billion profit that they will be getting already. This additional income will give a guaranteed return of more than 12% to their shareholders. I am not aware of any other investment that returns a greater guaranteed income for a public utility. As a person living on social security I did not receive any increase this year. Even when there is one granted it is usually only 2%. It has been almost too much trying to get along with all the federal tax increases over the last 7 years. Please don't exasperate our plight even further.

Sincerely,

Max Buck
