Subject: Docket#60021-E11 opposition to rate hike Florida Power & Light

Susan Wilson, 2524 Upper Cape St, Apt 207, Orange City, Florida 32763

I am a single 68 yr old senior on social security and I have always paid my way in life. Although I believe in my country and capitalism, There should be caps and accountable for profitable corporations such as our only utility company. When there are monopolies there is no choice and no competition. This service is imperative to our quality of life. FPL's anticipated profit is on target to make \$1.6B in 2017 without the requested rate increase. I cannot afford a 23% rate increase on \$954 per month. This additional rate increase is not due to an everyday cost increase but to fill the pockets of rich fatcats or investors.

While I do believe in limited govt monopolies should either be capped out and limited. This company does not even offer a senior discount and they themselves should offer help on a sliding scale to their customers.
