As an FPL residential customers I'm unable to attend one of the public hearings in person and I like to submit my testimony to FPL's rate hike, docket number 160021-E1.

I'm opposed to FPL's request equals to a 23 percent base rate increase for all residential ratepayers in order to generate higher profits for the power company and their stockholders. These profits come at our expense and I would like to point out that we have no option to shop around as we only have one power company providing services to a budget constrained senior community.
