Public Service Commission Clerk,  
I strongly urge you to vote NO on the proposed FPL rate increase. According to their own filing with the PSC, FPL is on target to make \$1.6B in profit in 2017 without the requested rate increase. With seniors having a hard time getting by financially, I find FPL's requested 23% base rate increase for all residential ratepayers predatory in nature, with FPL's customers as the potential victims. We as electricity consumers have no other choice but to use FPL's services, due to their monopoly. However, you do have a choice in this vote. Please stand up for the consumers and say no to corporate greed.

Sincerely,  
John Shuster
