Good morning Mr. Seifert,

This correspondence is a follow-up to our phone conversation earlier today, wherein I explained to you that your utility is ineligible for interim rates. This situation is due to the revenue exceeding the operating expenses by approximately \$13,400.

In order to have proper documentation for your SARC, please respond to this email with a statement that you withdraw your request for interim rates.

Thank you, and if you have any questions please feel free to contact me at your convenience.
