

Dear People,  
Dear Commission

July 21, 2016

RECEIVED-FPSC

2016 AUG 16 AM 9:10

COMMISSION  
CLERK

I'm writing not because I know the technical aspects of requirements BUT because I am a senior resident of Century Vlg. in West Palm Beach and I speak for others who cannot.

I do not believe that Florida Power + Light require any more funds for any reason.

My older son who has their stock is okay with it - I can not afford any stocks - My husband and I (he passed 7/7/98) lost more than 50 thousand dollars and as I am living on social security (which wasn't increased) + his 77-pension + my # 159-pension - Not really enuf for \$2-3 lb fruit + veggies, meat, etc which has all increased in cost except our income - I'm sorry if I ramble (will be 86 yrs. in Oct. - BUT truly have a

heart - We have not had a  
Hurricane in many years & I  
hope we don't have any for many  
more years - BUT the majority  
of seniors who live in Florida  
are truly not wealthy - We do  
not & cannot rely on our children  
& many are having a difficult  
time - My sister for one has  
dinner with me once a week &  
I try for at least 4 or 5 courses. I  
know she has difficulty - Only  
her social security for income -  
\$1170<sup>00</sup> month is not enuf - she  
needs cable & internet to speak &  
see her children - she saves on food -

We have food deserts for our  
hungry citizens - We cannot afford  
any more for necessary power &  
light - Please, please do re-  
member the poor among us!  
Thank you -

Pauline Jungreis
