Subject: FPL Rate Increase - Docket No. 160021-EI

Dear Mr. Mammoser:

Thank you for contacting the Florida Public Service Commission (PSC) about Florida Power & Light Company's (FPL) rate petition. To give Commissioners and staff an opportunity to review your comments, your correspondence is included in the file for Docket No.160021-EI.

As you know, the PSC customer service hearings were held in June in FPL's service territory for Commissioners to hear directly from customers about the utility's rate request and service. All customer comments during the hearings and all correspondence will be reviewed and considered when PSC staff prepares its recommendation to the Commissioners on FPL's proposed rates.

The PSC's evidentiary hearing on FPL's rate case will be in August in Tallahassee. Witnesses from the utility, intervenors, Commission staff, and the Public Counsel, who represents customers, will present testimony and exhibits and be cross-examined by the Commissioners and other parties. Commissioners will examine FPL's need for a rate increase, its existing and proposed rate structure, and its ability to provide safe and reliable service.

Commissioners are charged with making sure that Florida's utility companies fulfill their service obligation. The PSC will ensure that final customer rates reflect only those costs that are prudent and necessary for FPL to deliver quality electric service to your home or business. Any proposed rate adjustment is requested to begin in January 2017.

If you have additional questions or need further assistance, please call 1-800-342-3552. If you want updated case information, visit the PSC's website, www.floridapsc.com and click on the Clerk's Office tab, then hit Dockets and type in case number 160021.

Sincerely,

Bev DeMello
Assistant Director

Subject: Florida Power & Light Rate Increase Request - DOCKET NUMBER 160021-E1

My name is David Mammoser and my address where I have FPL service is 24247 Buckingham Way, Port Charlotte, FL 33980 and my phone number is 773-818-5503.

When I read the article about FPL's request for a 23% increase in base rates I was thoroughly appalled. They currently are making profits hand over fist. And as I read their info about their request none of the rate increase is planned for improvements in service, disaster preparedness or new energy solutions/innovation. And as a customer I have no options other than a generator. I use FPL or nothing, maybe some candles, etc.

Over the last 3 years I have received a grand total of less than 5% increase in my Social Security benefits and my Military Disability. I can't get a 23% increase in my government income so how does the Commission expect me to be able to afford the increase in my electrical costs?

Please do what's best for the citizens of Florida, DENY FPL'S REQUEST FOR A RATE INCREASE UNTIL IT DOES SOMETHING FOR ITS CUSTOMERS NOT JUST THEIR SHAREHOLDERS!!

HAVE A GREAT DAY!

Dave
