Subject: RE: Docket No. 160173-EI: Follow-up Question to Response

Hi Sevini,

I confirm that, if the current petition is approved, we will make some sort of request on or before October 17, 2019 to provide an update on the status of this rider (basically one of the choices you outline below).

Thanks,
Dianne

Subject: RE: Docket No. 160173-EI: Follow-up Question to Response

Dianne:

In the response to Question 9 of Staff's First Data Request, the company states that it is unknown at this time if the Riders will be made permanent after October 17, 2019.

Could you please confirm that, if this current petition is approved, would the company make a request to the Commission on or before October 17, 2019 to (1) continue the riders as is, (2) continue the riders with modifications based on experience/lessons learned, or (3) discontinue the riders.

Thanks
Sevini

Subject: RE: Docket No. 160173-EI: Follow-up Question to Response

Hi Sevini,

We currently have six separate accepted ED Rider applications (one EDR-1 applicant and five ED-1 applicants).

The single EDR-1 applicant expects to meet the minimum threshold for service by September 2016. This customer is in the process of ramping up their new operation and requested that we begin their discount in September 2016.

The five ED-1 applicants consist of four customers that are ramping up their new operations (installing equipment, increasing their product output and/or adding more shifts/increasing their hours of operation). These customers are

recent announcements and are all in their new facility but have not yet met the minimum ED-1 kW demand and/or load factor thresholds. The fifth ED-1 applicant has yet to construct their building. Our best estimate for when they might begin receiving the ED-1 discount is September 2017, but this may change depending on their construction progress.

Thanks and please let me know if you have any additional questions.

Dianne

Dianne/Matt:

In DEF's response to Question 1 to Staff's First Data Request, the company states that the six enrolled customers under the ED-1 and EDR-1 riders are not yet ready to commence their respective discounts. The response to Question 2 states that the company expects two customers to commence billing within the next two months. Please explain the status of the other four customers who are not ready to commence billing yet and explain under what circumstances customers would be taking service already, but are not ready to commence billing under the riders? Are they in the process of constructing a building and hiring employees?

Thanks
Sevini
