Good Afternoon Kelley and Roland:

Denise Vandiver saw this post on Facebook and we thought it might be a good idea to send to both of you. If you read the top post by William Scott you will see that it appears that Mr. Scott is changing the chlorine level for the Utility. We don't believe Mr. Scott is a utility operator and we don't think it seems like sound practice to adjust the chlorine level based on whether the customers think the water is "good" or "bad."

Sincerely,

Danielle M. Roth
