Re: Ni Florida, LLC; Application for a Rate Increase in Pasco & Lee Counties, Florida  
Docket No. 160030-WS

Dear Ms. Stauffer,

Attached hereto are the utility's responses to the staff's second data request which was dated August 3, 2016.

I believe that we have responded fully to each of the questions raised by staff in this regard. However, we are currently working to try and determine what information we have that can be provided to the staff in a reasonable and efficient manner in order to more fully respond to item number 7 of the staff's data request and should have that additional information within the next week.

If you or staff have any further questions in this regard, please let me know.

Sincerely,

A handwritten signature in black ink, appearing to read "F. Marshall Deterding". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

F. Marshall Deterding  
Of Counsel

Ni Florida, LLC  
Docket No. 160030-WS

Florida Public Service Commission  
Staff's Second Data Request

Question 1: In response to staff's first data request, Item 1, the utility provided documentation related to its Rhodes Road pro forma project that included a list of six invoices, totaling \$3,132.95, from 2011. Please provide the following invoices which were referenced, but not included, in the utility's previous response:

6/01/11	Key Engineering, Invoice #11-033,	\$405.00
5/01/11	Key Engineering, Invoice #11-023,	\$1,895.45
4/01/11	Key Engineering, Invoice #11-016,	\$337.50
2/01/11	Key Engineering, Invoice #11-003,	\$67.50
1/01/11	Key Engineering, Invoice #10-136,	\$270.00
4/27/11	Utility Group of Florida, Invoice #13713,	\$157.50

Response: These 6 invoices are attached.

Docket No. 160030-WS

Florida Public Service Commission  
Staff's Second Data Request

Question 2: For each invoice listed above, please explain in detail how the work performed specifically relates to the Rhodes Road project.

Response: Key Engineering Invoices 11-033 for \$405.00, 11-023 for \$1,895.45, 11-016 for \$337.50, were for preliminary engineering work for the Rhodes Road project. Florida Utility Group, LLC invoice 13713 for \$157.50 was for locating the force main for potential connection of the Rhodes Road project customer.

Key Engineering Invoice 11-003 for \$67.50 was for calculating ERUs for Dollar General, a new customer, and Invoice 10-136 for \$270.00 was for the chlorides reduction plan

Florida Public Service Commission  
Staff's Second Data Request

Question 3: In response to staff's first data request, Item 1, the utility provided documentation showing \$832.50 of the 2011 expense was included in a deferred preliminary survey account. According to the utility's response, additional amounts of \$405.00 and \$1,895.45 were initially recorded in engineering O&M and then also moved to preliminary survey, but no support documentation was provided. Please provide support documentation showing that the additional amounts were placed into a deferred account.

Response: Attached are screen prints showing that the \$405.00 and \$1,895.45 were initially recorded in Account 731, Engineering Expense, and then adjusted to Account 183, Preliminary Survey & Investigation Charges.

In the Matter of an  
Application for Permit by:

**PERMITTEE:**

Mr. Andy Thomas, Vice President  
Ni Florida LLC  
10130 Scenic Drive  
Port Richey, FL 34668  
[athomas@niamerica.com](mailto:athomas@niamerica.com)

**PERMIT NUMBER:** CS41-0026257-024-DWC/CM

**COUNTY:** Pasco

**PROJECT NAME:** Tower Drive Sanitary Sewer  
Replacement Project

**WASTEWATER TREATMENT:** Shady Hills  
Subregional

**FACILITY ID:** FLA012741

**NOTICE OF PERMIT ISSUANCE**

Enclosed is Permit Number CS41-0026257-024-DWC/CM to construct a domestic wastewater collection/transmission system, issued pursuant to 403.087(1), Florida Statutes.

The Department's proposed agency action shall become final unless a timely petition for an administrative hearing is filed under Sections 120.569 and 120.57, Florida Statutes, within fourteen days of receipt of notice. The procedures for petitioning for a hearing are set forth below.

A person whose substantial interests are affected by the Department's proposed permitting decision may petition for an administrative proceeding (hearing) under Sections 120.569 and 120.57, Florida Statutes. The petition must contain the information set forth below and must be filed (received by the Clerk) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000.

Under Rule 62-110.106(4), Florida Administrative Code, a person may request an extension of the time for filing a petition for an administrative hearing. The request must be filed (received by the Clerk) in the Office of General Counsel before the end of the time period for filing a petition for an administrative hearing.

Petitions by the applicant or any of the persons listed below must be filed within fourteen days of receipt of this written notice. Petitions filed by any persons other than those entitled to written notice under Section 120.60(3), Florida Statutes, must be filed within fourteen days of publication of the notice or within fourteen days of receipt of the written notice, whichever occurs first. Section 120.60(3), Florida Statutes, however, also allows that any person who has asked the Department in writing for notice of agency action may file a petition within fourteen days of receipt of such notice, regardless of the date of publication.

The petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition or request for extension of time within fourteen days

**PROJECT NAME:** Tower Drive Sanitary Sewer Replacement Project  
**PERMIT NUMBER:** CS41-0026257-024-DWC/CM

of receipt of notice shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, Florida Statutes. Any subsequent intervention (in a proceeding initiated by another party) will be only at the discretion of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, Florida Administrative Code.

A petition that disputes the material facts on which the Department's action is based must contain the following information, as indicated in Rule 28-106.201, Florida Administrative Code:

- (a) The name and address of each agency affected, each agency's file or identification number, if known, and the county in which the project is located;
- (b) The name, address, any e-mail address, any facsimile number, and telephone number of the petitioner, if the petitioner is not represented by an attorney or a qualified representative; the name, address, and telephone number of the petitioner's representative, if any; which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the determination;
- (c) A statement of when and how the petitioner received notice of the Department's decision;
- (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate;
- (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the Department's proposed action;
- (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the Department's proposed action, including an explanation of how the alleged facts relate to the specific rules or statutes; and
- (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the Department to take with respect to the Department's proposed action.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation under Section 120.573, Florida Statutes, is not available for this proceeding.

This permit action is final on the date filed with the Clerk of the Department unless a petition (or request for extension of time) is filed in accordance with the above. Upon the timely filing of a petition (or request for an extension of time), this permit will not be effective until further order of the Department.

Any party to the permit has the right to seek judicial review of the permit action under Section 120.68, Florida Statutes, by the filing of a notice of appeal under Rules 9.110 and 9.190, Florida Rules of Appellate Procedure, with the Clerk of the Department in the Office of General Counsel, 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida, 32399-3000, and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate district court of appeal. The notice of appeal must be filed within 30 days from the date when this permit action is filed with the Clerk of the Department.

This permit is issued under the provisions of Chapter 403, Florida Statutes (F.S.), and Chapters 62-4 and 62-604, Florida Administrative Code (F.A.C.).

The above named permittee is hereby authorized to construct the facilities shown on the application and other documents on file with the Department and made a part hereof and specifically described as follows:

**DESCRIPTION OF PROJECT:**

Construction of a domestic wastewater collection/transmission system to replace an existing system. This project consists of an eight-inch diameter gravity pipe, two-inch diameter force main, three-inch diameter force main, four-inch diameter force main, seven manholes, and five lift stations.

**LOCATION OF PROJECT:**

The domestic wastewater collection/transmission system is located in Section 04, Township 25, and Range 16 of Hudson, Florida.

**IN ACCORDANCE WITH:** The limitations, requirements and other conditions set forth in pages 1 through 2 of this permit.

**PROJECT NAME:** Tower Drive Sanitary Sewer Replacement Project  
**PERMIT NUMBER:** CS41-0026257-024-DWC/CM

**PERMIT CONDITIONS:**

1. This permit is subject to the general conditions of Rule 62-4.160, F.A.C., as applicable. This rule is available at the Department's Internet site at:  
<http://www.dep.state.fl.us/water/rulesprog.htm#ww> [62-4.160]
2. Upon completion of construction of the collection/transmission system project, and before placing the facilities into operation for any purpose other than testing for leaks or testing equipment operation, the permittee shall submit to the Department's Southwest District Office Form 62-604.300(8)(b), Request for Approval to Place a Domestic Wastewater Collection/Transmission System into Operation. This form is available at the Department's Internet site at:  
<http://www.dep.state.fl.us/water/wastewater/forms.htm> [62-604.700(2)]
3. The new or modified collection/transmission facilities shall not be placed into service until the Department clears the project for use. [62-604.700(3)]
4. Permit revisions shall only be made in accordance with Rule 62-4.050(4)(s), F.A.C. Request for revisions shall be made to the Department in writing and shall include the appropriate fee. Revisions not covered under Rule 62-4.050(4)(s), F.A.C., shall require a new permit. [62-604.600(8)]
5. Abnormal events shall be reported to the Department's Southwest District Office in accordance with Rule 62-604.550, F.A.C. For unauthorized spills of wastewater in excess of 1000 gallons per incident, or where information indicates that public health or the environment may be endangered, oral reports shall be provided to the STATE WATCH OFFICE TOLL FREE NUMBER, (800) 320-0519, as soon as practical, but no later than 24 hours from the time the permittee or other designee becomes aware of the circumstances. Unauthorized releases or spills less than 1000 gallons per incident are to be reported orally to the Department's Southwest District Office within 24 hours from the time the permittee, or other designee becomes aware of the circumstances. [62-604.550]
6. This permit is for CONSTRUCTION ONLY of the collection/transmission system project. This permit does not authorize the connection of this collection/transmission system project to the designated wastewater treatment plant. This permit shall not be construed to infer that the clearance necessary for connection shall be granted. Any such clearance shall be granted only when reasonable assurance is given that adequate treatment and disposal is available in accordance with Department rules, regulations, and permits. Partial clearance may be granted, if required. [62-604.130(1) and 62-604.600(7)]

Re: Final Clearance – Entire Project Complete  
County: Pasco  
Project: Tower Drive Sanitary Sewer Replacement Project  
Permit No.: CS41-0026257-024-DWC/CM  
WWTF: Shady Hills Subregional FLA012741

Dear Mr. Sherwood,

The Department has received your *Request for Approval to Place a Domestic Wastewater Collection/ Transmission System into Operation* [FDEP Form 62-604.300(8)(b)] and supporting documents for the above-referenced project. This project was approved for construction under the permit application number described above, issued on April 17, 2015. The engineer of record certified that a portion of the collection/transmission system has been completed without substantial deviations.

The submitted documents indicate compliance with the clearance procedures identified in Rule 62-604.700, Florida Administrative Code (FAC). Therefore, the Department is issuing this letter of release to place the portion of the above-referenced domestic wastewater collection/transmission system into service. Pursuant to 62-604.700, FAC portions of this project that have not been cleared for service may not be placed into operation for any purpose other than testing for leaks or equipment operation.

You must comply with any changes in applicable laws and regulations that affect operating procedures and/or quality standards, and be aware of and operate under the general conditions included in your permit. General permit conditions are binding upon the permittee and enforceable pursuant to Chapter 403 of the Florida Statutes.

If you have any questions or comments, please contact me at (813) 470-5759, or via email at [tonya.haugland@dep.state.fl.us](mailto:tonya.haugland@dep.state.fl.us).

Sincerely,

A handwritten signature in black ink, appearing to read "Tonya S. Haugland".

Ni Florida, LLC  
Docket No. 160030-WS

Florida Public Service Commission  
Staff's Second Data Request

Question 5: Please provide any additional invoices related to the Tower Drive Project that were not included in the utility's response to staff's first data request, Item 1. As part of the response, please provide an estimate to complete the project if there is still work remaining.

Response: Invoices provided initially in response to Staff's First Data Request, Item 1, for the Tower Drive Project totaled \$558,883.22. Attached are additional invoices totaling \$295,976.29, for a total of \$854,859.51. The total project should be complete and in-service by September 30, 2016.

Prepared by: Benny Wilkinson

RE: Ni Florida, LLC v. Dixon

Dear Ms. Dixon:

This letter will serve to confirm the understanding reached between us during our telephone conversation of July 6, 2016.

You requested in your email that I determine whether or not your lift station and utilities are situated within a utility easement. You provided me with the email chain between you and the County and letters from Mr. Hayes as well as deeds and Restrictive Covenants. I will be ordering a title search for Lot 53, Signal Cove Unit Four, to determine what easements are on the property. I will also contact a surveyor to survey Lot 53, Signal Cove Unit Four, to locate where the utilities are situated.

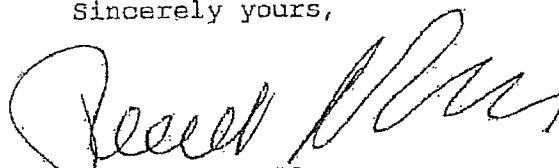

I anticipate the cost of the survey to be approximate \$300.00-\$350.00 and the title search to be approximate \$250.00.

Once I receive the survey and the title search we can then determine where in relationship to any easements or road right-a-way the lift station is situated. Once we confirm the location and whether it is inside an easement or outside an easement, I will then be in a position to research the issue of a prescriptive easement or otherwise respond to Mr. Hayes by providing him with a survey showing the lift station within an easement.

I advised that I will be billing you at the rate of \$400.00 per hour for my services, \$250.00 an hour for my Associates time, which I doubt would be working on the matter, and \$100.00 per hour for Paralegal time.

I would appreciate you forwarding to me a check or if you prefer contacting my office and ask for my office manager, Kelly East, and she could provide you with wiring information or accept a credit card over the phone for a deposit towards the cost and my fees of \*\$2,000.00.\*

Sincerely yours,

Roland D. Waller

Question 6: In response to staff's first data request, Item 6, the utility provided billing detail related to contractual services – legal expense. The responses included 9.1 hours, or \$3,165, for work related to the four-year rate reduction. Please explain why it was necessary for an attorney to perform this work.

Response: These are costs incurred by the utility in attempting to implement the rate reduction required by statute, rule and commission order. It is reasonable for the utility to have incurred these costs. In this case the utility's attorney was first contacted by the commission staff attorney concerning this required rate reduction. The company attorney then reviewed the applicable orders, statute, rules and tariffs. Then the attorney discussed the issues involved with the utility management, and sought the advice of PSC technical & legal Staff concerning interpretation of the commission's order, the statute, and applicable rule. Thereafter the utility's attorney assisted the company in the proper calculation of reduced rates and development of appropriate notices and tariffs and coordination with the FPSC staff to accomplish the required reduction and refunds. These are therefore appropriate costs for recovery and it was necessary and prudent for an attorney to be involved in the process.

Ni Florida, LLC  
Docket No. 160030-WS

Florida Public Service Commission  
Staff's Second Data Request

Question 7: In response to staff's first data request, Item 7, one of the expenses was related to an audit of the entire Ni Florida wastewater collection system totaling \$17,851.12. Please explain how often the utility performs this type of audit, when the last audit took place, and how the utility uses the results. As part of your response, please provide a copy of the audit findings.

Response: This audit of the entire Ni Florida wastewater collection system was done to for the first time to identify customers in the service area that were on the system, those homes in the service area that were not on the system, and to note whether or not the customer has an Elder Valve installed. It is Ni Florida's plan to do this type of audit every three years. A copy of the customer audit findings would be voluminous. The report from the audit of the Hudson collection system is available for review by the Staff of the FPSC at the Utility Group of Florida, LLC office in Port Richey, Florida.

Prepared by: Benny Wilkinson

Ni Florida, LLC  
Docket No. 160030-WS

Florida Public Service Commission  
Staff's Second Data Request

Question 8: Please explain why wastewater contractual services – other expense has increased substantially since the utility's last rate case. Include in your response whether the utility anticipates a reduction in any portion of this expense going forward as a result of the completion of the pro forma projects being considered in this rate case.

Response: In order to maintain this old wastewater collection system, it is necessary to spend enough money on maintenance to attempt to reduce I&I and eliminate or reduce chlorides and sanitary sewer overflows. Ni Florida is committed to spend whatever level on maintenance to accomplish this. Some years will have higher spending on contract maintenance and some years will have less spending on contract maintenance. Some of the maintenance spending is mandatory and cannot be delayed from one year to the next. For the two pro forma projects, Tower Drive and Rhodes Road, the maintenance for those would be expected to be minimal in the first few years. The utility believes that the costs incurred in this account during the test year are reasonable and represent an appropriate average of the costs that the utility will incur in the future in properly maintaining the system.

Florida Public Service Commission  
Staff's Second Data Request

Question 9: Please explain why miscellaneous expenses for water and wastewater have increased by over 88 percent and 75 percent, respectively, since the utility's last rate case.

Response: Miscellaneous Expenses have increased since the last Ni Florida, LLC rate case. However, Ni Florida believes it would be better to compare the "as filed" amounts from the current rate case with the "as filed" amounts from the last rate case. This comparison would result in an increase of 31% for Tamiami water and an increase of 21% for Hudson wastewater over the 3-year period. While these percentage increases are more than Ni Florida would have hoped for, it remains much more reasonable than the 88% increase for Tamiami water and the 75% for Hudson wastewater, as stated in the question. In the last rate case, the FPSC allowed 62% of the Tamiami water Miscellaneous Expenses requested (as filed vs ordered) and 68% of the Hudson wastewater Miscellaneous Expenses requested (as filed vs ordered). The attachment details these calculated percentages. Ni Florida feels certain that the percentage increases of "as ordered" Miscellaneous Expenses for both water and wastewater when compared to the "as ordered" Miscellaneous Expenses from the last rate case will be more reasonable than the 88% and 75% noted in the question.

Docket No. 160030-Ws

Florida Public Service Commission  
Staff's Second Data Request

Question 10: In response to staff's first data request, Item 10, the utility said that it would provide staff with updated rate case expense "in early to mid September." Since staff's revenue requirement will be calculated prior to that time, please update Ni Florida's requested rate case expense, including costs incurred through July, 2016 and estimated costs to complete through the PAA process. In addition, please provide supporting documentation (i.e., invoices or receipts) as well as a detailed explanation and calculations to justify estimated expense to completion.

Response: See attached updated Detail of Actual and Estimated Rate Case Expense of \$107,517.08.

**NI FLORIDA, LLC  
 SCHEDULE OF ACTUAL RATE CASE EXPENSES  
 FROM PRIOR FILINGS IN DOCKET NO. 150170-WS RELATED TO CURRENT CASE  
 DOCKET NO. 160030-WS**

**ACTUAL BILLINGS**

The utility expended approximately \$74,000 in preparation and filing of the rate proceeding in Docket 150170-WS which was ultimately withdrawn. While the great majority of the costs related to this proceeding are not relevant to the current rate case proceeding, most of the costs related to legal services incurred during the three months prior rate case filing are directly related to the information necessary in order to file the current rate proceeding in Docket 160030-WS. The costs for drafting of pleadings, organization of tariffs and exhibits which were the focus of the three legal bills just prior to the filing were substantially similar to those filed in the instant rate proceeding. As such, the utility believes that a significant portion of the rate case expenses incurred for legal services in those three months directly benefit the current rate proceeding. In an attempt to estimate conservatively, the utility has allocated 50% of the cost of those services as costs related to the current rate proceeding. Those costs have been included in the current estimate of total rate case expense attached. The bills from that period of time are attached.

<b>Month of Service</b>	<b>Invoice Date</b>	<b>Fees</b>	<b>Disbursements</b>	<b>Total</b>
July, 2015	8/7/15	\$ 3,412.50	\$ 3.50	\$ 3,416.00

Ni Florida, LLC  
Docket No. 160030-WS

Florida Public Service Commission  
Staff's Second Data Request

Question 11: Please provide the following (for the Rhodes Road –R.O.P.E.S. project):

- a. Project timeline through anticipated in-service date.
- b. Three complete contractor bids for all work planned. If three bids are not available, please provide an explanation of attempts made to obtain bids.
- c. Asset additions and retirements for this project, broken down using NARUC Uniform System of Accounts.

Response: The Rhodes Road project for new customer R.O.P.E.S. has been in-service since April 2016. R.O.P.E.S. has been a customer since April 26, 2016. The initial estimate for this project was \$75,000.00, but actual spending on it was \$83,492.85, and was slightly more than the CIAC received from the customer of \$77,760. In response to question 1 of the Staff's First Data Request, we provided support for costs of \$82,880.35. One additional invoice of \$612.50 (attached) for this project brings total spending to \$83,482.85. Since this is new construction, there are no retirements. See attached detail of this project by NARUC Account.

Re: Final Clearance – Entire Project  
County: Pasco  
Project: Rhodes Road Pump Station and Force Main Project  
Permit No.: CS41-0026257-023-DWC/CM  
WWTF: Shady Hills Subregional FLA012741

Dear Mr. Sherwood,

The Department has received your *Request for Approval to Place a Domestic Wastewater Collection/ Transmission System into Operation* [FDEP Form 62-604.300(8)(b)] and supporting documents for the above-referenced project. This project was approved for construction under the permit application number described above, issued on April 15, 2015. The engineer of record certified that a portion of the collection/transmission system has been completed without substantial deviations.

The submitted documents indicate compliance with the clearance procedures identified in Rule 62-604.700, Florida Administrative Code (FAC). Therefore, the Department is issuing this letter of release to place the portion of the above-referenced domestic wastewater collection/transmission system into service. Pursuant to 62-604.700, FAC portions of this project that have not been cleared for service may not be placed into operation for any purpose other than testing for leaks or equipment operation.

You must comply with any changes in applicable laws and regulations that affect operating procedures and/or quality standards, and be aware of and operate under the general conditions included in your permit. General permit conditions are binding upon the permittee and enforceable pursuant to Chapter 403 of the Florida Statutes.

If you have any questions or comments, please contact me at (813) 470-5759, or via email at [tonya.haugland@dep.state.fl.us](mailto:tonya.haugland@dep.state.fl.us).

Sincerely,

A handwritten signature in black ink, appearing to read "Tonya S. Haugland".

Ni Florida, LLC  
Docket No. 160030-WS

Florida Public Service Commission  
Staff's Second Data Request

Question 12: Please provide the following (for the Tower Drive Collection System Replacement Project):

- a. Project timeline through anticipated in-service date.
- b. Three complete contractor bids for all work planned. If three bids are not available, please provide an explanation of attempts made to obtain bids.
- c. Asset additions and retirements for this project, broken down using NARUC Uniform System of Accounts

Response: The timeline for the Tower Drive project is as follows:

- FDEP permit issued -- 4/20/15
- Pasco County ROW permit issues -- 5/27/15
- Project awarded to UGF -- 6/19/15
- Most active construction period -- 1/15/16 to 6/15/16
- Total construction period -- 6/20/15 to 9/30/16
- FDEP Clearance Letter -- 6/15/16
- Date to be placed into service -- 9/30/16

The FDEP permit and the FDEP clearance letter are attached.

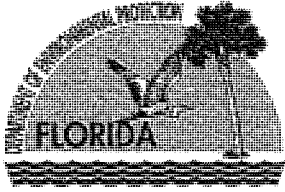

All bids for this project are attached.

The additions by NARUC Account and estimated retirements by NARUC Account are attached.

The retirements are estimated to be 74.77% of this cost by account based on an estimated age of 15 years.

**PERMIT NUMBER:** CS41-0026257-024-DWC/CM

**COUNTY:** Pasco

**PROJECT NAME:** Tower Drive Sanitary Sewer  
Replacement Project

**WASTEWATER TREATMENT:** Shady Hills  
Subregional

**FACILITY ID:** FLA012741

**NOTICE OF PERMIT ISSUANCE**

Enclosed is Permit Number CS41-0026257-024-DWC/CM to construct a domestic wastewater collection/transmission system, issued pursuant to 403.087(1), Florida Statutes.

The Department's proposed agency action shall become final unless a timely petition for an administrative hearing is filed under Sections 120.569 and 120.57, Florida Statutes, within fourteen days of receipt of notice. The procedures for petitioning for a hearing are set forth below.

A person whose substantial interests are affected by the Department's proposed permitting decision may petition for an administrative proceeding (hearing) under Sections 120.569 and 120.57, Florida Statutes. The petition must contain the information set forth below and must be filed (received by the Clerk) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000.

Under Rule 62-110.106(4), Florida Administrative Code, a person may request an extension of the time for filing a petition for an administrative hearing. The request must be filed (received by the Clerk) in the Office of General Counsel before the end of the time period for filing a petition for an administrative hearing.

Petitions by the applicant or any of the persons listed below must be filed within fourteen days of receipt of this written notice. Petitions filed by any persons other than those entitled to written notice under Section 120.60(3), Florida Statutes, must be filed within fourteen days of publication of the notice or within fourteen days of receipt of the written notice, whichever occurs first. Section 120.60(3), Florida Statutes, however, also allows that any person who has asked the Department in writing for notice of agency action may file a petition within fourteen days of receipt of such notice, regardless of the date of publication.

The petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition or request for extension of time within fourteen days

**PROJECT NAME:** Tower Drive Sanitary Sewer Replacement Project  
**PERMIT NUMBER:** CS41-0026257-024-DWC/CM

of receipt of notice shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, Florida Statutes. Any subsequent intervention (in a proceeding initiated by another party) will be only at the discretion of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, Florida Administrative Code.

A petition that disputes the material facts on which the Department's action is based must contain the following information, as indicated in Rule 28-106.201, Florida Administrative Code:

- (a) The name and address of each agency affected, each agency's file or identification number, if known, and the county in which the project is located;
- (b) The name, address, any e-mail address, any facsimile number, and telephone number of the petitioner, if the petitioner is not represented by an attorney or a qualified representative; the name, address, and telephone number of the petitioner's representative, if any; which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the determination;
- (c) A statement of when and how the petitioner received notice of the Department's decision;
- (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate;
- (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the Department's proposed action;
- (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the Department's proposed action, including an explanation of how the alleged facts relate to the specific rules or statutes; and
- (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the Department to take with respect to the Department's proposed action.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation under Section 120.573, Florida Statutes, is not available for this proceeding.

This permit action is final on the date filed with the Clerk of the Department unless a petition (or request for extension of time) is filed in accordance with the above. Upon the timely filing of a petition (or request for an extension of time), this permit will not be effective until further order of the Department.

Any party to the permit has the right to seek judicial review of the permit action under Section 120.68, Florida Statutes, by the filing of a notice of appeal under Rules 9.110 and 9.190, Florida Rules of Appellate Procedure, with the Clerk of the Department in the Office of General Counsel, 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida, 32399-3000, and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate district court of appeal. The notice of appeal must be filed within 30 days from the date when this permit action is filed with the Clerk of the Department.

This permit is issued under the provisions of Chapter 403, Florida Statutes (F.S.), and Chapters 62-4 and 62-604, Florida Administrative Code (F.A.C.).

The above named permittee is hereby authorized to construct the facilities shown on the application and other documents on file with the Department and made a part hereof and specifically described as follows:

**DESCRIPTION OF PROJECT:**

Construction of a domestic wastewater collection/transmission system to replace an existing system. This project consists of an eight-inch diameter gravity pipe, two-inch diameter force main, three-inch diameter force main, four-inch diameter force main, seven manholes, and five lift stations.

**LOCATION OF PROJECT:**

The domestic wastewater collection/transmission system is located in Section 04, Township 25, and Range 16 of Hudson, Florida.

**IN ACCORDANCE WITH:** The limitations, requirements and other conditions set forth in pages 1 through 2 of this permit.

**PROJECT NAME:** Tower Drive Sanitary Sewer Replacement Project  
**PERMIT NUMBER:** CS41-0026257-024-DWC/CM

**PERMIT CONDITIONS:**

1. This permit is subject to the general conditions of Rule 62-4.160, F.A.C., as applicable. This rule is available at the Department's Internet site at:  
<http://www.dep.state.fl.us/water/rulesprog.htm#ww> [62-4.160]
2. Upon completion of construction of the collection/transmission system project, and before placing the facilities into operation for any purpose other than testing for leaks or testing equipment operation, the permittee shall submit to the Department's Southwest District Office Form 62-604.300(8)(b), Request for Approval to Place a Domestic Wastewater Collection/Transmission System into Operation. This form is available at the Department's Internet site at:  
<http://www.dep.state.fl.us/water/wastewater/forms.htm> [62-604.700(2)]
3. The new or modified collection/transmission facilities shall not be placed into service until the Department clears the project for use. [62-604.700(3)]
4. Permit revisions shall only be made in accordance with Rule 62-4.050(4)(s), F.A.C. Request for revisions shall be made to the Department in writing and shall include the appropriate fee. Revisions not covered under Rule 62-4.050(4)(s), F.A.C., shall require a new permit. [62-604.600(8)]
5. Abnormal events shall be reported to the Department's Southwest District Office in accordance with Rule 62-604.550, F.A.C. For unauthorized spills of wastewater in excess of 1000 gallons per incident, or where information indicates that public health or the environment may be endangered, oral reports shall be provided to the STATE WATCH OFFICE TOLL FREE NUMBER, (800) 320-0519, as soon as practical, but no later than 24 hours from the time the permittee or other designee becomes aware of the circumstances. Unauthorized releases or spills less than 1000 gallons per incident are to be reported orally to the Department's Southwest District Office within 24 hours from the time the permittee, or other designee becomes aware of the circumstances. [62-604.550]
6. This permit is for CONSTRUCTION ONLY of the collection/transmission system project. This permit does not authorize the connection of this collection/transmission system project to the designated wastewater treatment plant. This permit shall not be construed to infer that the clearance necessary for connection shall be granted. Any such clearance shall be granted only when reasonable assurance is given that adequate treatment and disposal is available in accordance with Department rules, regulations, and permits. Partial clearance may be granted, if required. [62-604.130(1) and 62-604.600(7)]

Re: Final Clearance – Entire Project Complete  
County: Pasco  
Project: Tower Drive Sanitary Sewer Replacement Project  
Permit No.: CS41-0026257-024-DWC/CM  
WWTF: Shady Hills Subregional FLA012741

Dear Mr. Sherwood,

The Department has received your *Request for Approval to Place a Domestic Wastewater Collection/ Transmission System into Operation* [FDEP Form 62-604.300(8)(b)] and supporting documents for the above-referenced project. This project was approved for construction under the permit application number described above, issued on April 17, 2015. The engineer of record certified that a portion of the collection/transmission system has been completed without substantial deviations.

The submitted documents indicate compliance with the clearance procedures identified in Rule 62-604.700, Florida Administrative Code (FAC). Therefore, the Department is issuing this letter of release to place the portion of the above-referenced domestic wastewater collection/transmission system into service. Pursuant to 62-604.700, FAC portions of this project that have not been cleared for service may not be placed into operation for any purpose other than testing for leaks or equipment operation.

You must comply with any changes in applicable laws and regulations that affect operating procedures and/or quality standards, and be aware of and operate under the general conditions included in your permit. General permit conditions are binding upon the permittee and enforceable pursuant to Chapter 403 of the Florida Statutes.

If you have any questions or comments, please contact me at (813) 470-5759, or via email at [tonya.haugland@dep.state.fl.us](mailto:tonya.haugland@dep.state.fl.us).

Sincerely,

Ni Florida, LLC  
Docket No. 160030-WS

Florida Public Service Commission  
Staff's Second Data Request

Question 13: Please provide an explanation of the utility's method for distributing Boil Water Notices, and a list of all Boil Water Notices issued in the past 5 years.

Response: The process for distributing boil water notices and the boil water notices themselves for Tamiami water for 2012 – 2016 are attached. The only boil water notice issued in 2016 was done so by Lee County Utilities due to a break/pressure reduction affecting the entire water system and was done via television or other media sources. Ni Florida does not have a copy of such notice, as it was not initiated by Tamiami water.

Prepared by: Benny Wilkinson

## Benny Wilkinson

---

To: Craig Sherwood  
Subject: RE: PBWN Instructions

Subject: PBWN Instructions

These are the instructions that are forwarded with each PBWN. For widespread PBWN that affect large sections of the park notices are also placed in the Club Houses of the park.

### UGFL STAFF

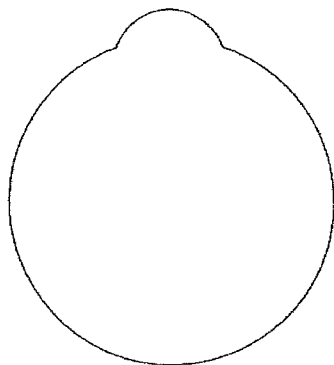

You will need to post copies in conspicuous places where all residents/visitors on or to *affected area* may have an opportunity to see it; or you can distribute copies to each residence. ***If you have any homebound residents, you will need to deliver a copy of the Precautionary Notice to them.***

### TAMIAMI VILLAGE OFFICE

This notice is to inform you; residents/visitors on or to *affected area* are currently under a precautionary boiled water notice until further notice. The proper authorities have been notified and your reporting requirements have been met. You may forward all questions and concerns to our customer service line 1-877-233-0101. If you have any questions, please don't hesitate to contact us.

### LEE COUNTY

Can you please have the Bact's collected as soon as possible. I will also follow this up with a phone call.

---

AS A PRECAUTION, WE ADVISE THAT ALL WATER USED FOR DRINKING OR COOKING BE BROUGHT TO A ROLLING BOIL FOR AT LEAST ONE MINUTE. AS AN ALTERNATIVE, BOTTLED WATER MAY BE USED.

THIS "PRECAUTIONARY BOIL WATER NOTICE" IS TEMPORARY AND WILL ONLY REMAIN IN EFFECT UNTIL A BACTERIOLOGICAL SURVEY SHOWS THAT THE WATER IS SAFE TO DRINK. AT WHICH TIME A RESCISSION NOTICE WILL BE ISSUED.

IF YOU HAVE ANY QUESTIONS YOU MAY CONTACT THE UTILITY DEPT. TOLL FREE AT 877-FLA-UTIL OR 727-863-0205

AUGUST 25, 2015

ATTN: RESIDENTS OF TAMIAMI  
VILLAGE AND RV PARK

A PLANNED SYSTEM WIDE OUTAGE  
WILL OCCUR ON

TUESDAY,  
AUGUST 25, 2015

WATER SERVICE WILL BE  
TEMPORARILY OFF FOR REPAIRS  
AND MAINTENANCE TO THE SYSTEM.

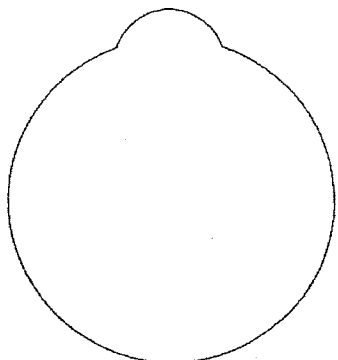

FOLLOWING THE OUTAGE A BOIL  
WATER NOTICE WILL BE IN EFFECT  
UNTIL FURTHER NOTICE

PRECAUTIONARY BOIL WATER NOTICE

TO: RESIDENTS/VISITORS OF TAMAMI VILLAGE ON SATURN CIRCLE

---

THERE IS AN EMERGENCY SHUT DOWN OF THE WATER SERVICE FOR SATURN CIRCLE TO MAKE REPAIRS.

THEREFORE, AS A PRECAUTION, WE ADVISE THAT ALL WATER USED FOR DRINKING, COOKING, MAKING ICE, BRUSHING TEETH, OR WASHING DISHES BE BOILED WHEN THE WATER SERVICE IS RETURNED. A ROLLING BOIL OF ONE MINUTE IS SUFFICIENT. AS AN ALTERNATIVE BOTTLED WATER MAY BE USED.

THIS "PRECAUTIONARY BOIL WATER NOTICE" WILL REMAIN IN EFFECT UNTIL A BACTERIOLOGICAL SURVEY SHOWS THAT THE WATER IS SAFE TO DRINK.

IF YOU HAVE ANY QUESTIONS YOU MAY CONTACT UTILITY GROUP OF FLORIDA AT 1-877-233-0101 OR 727-863-5161
