This should be flat out refused- FPL have a monopoly and asking for this kind of raise when most of us (Who are working) only get 1-2 % will be hit hard in the wallet and is against the governors mantra of FL being a great place to do business-this rate hike request will HURT working and poorer families, small businesses and will lead to consumer price rises.

they already make 945 Million in profit -is that not enough?

There is really no need whatsoever to allow this raise either in full or in incremental raises...

please look after the public and tell them flat out NO.
I am unable to shop around for my electricity and this is abuse of a monopoly.
thank you

Paul
