

Raise Your Voice Before They Raise Your Rates!

Florida Power & Light (FPL) is asking the state Public Service Commission for a \$1.34 billion increase in electric rates. AARP believes the level of this proposed rate increase isn't justified.

FPL is already earning more than 9 percent returns in a business that is protected from competition by state law. Now they want returns of up to 12.5 percent.

Meanwhile, many Florida residential rate-payers struggle to earn 2 percent on their savings and investments. For consumers, the proposed rate increase means an annual increase of \$160 a year within four years. FPL is also trying to increase the fixed part of your utility bill, a fee that you must pay before you even turn on the lights.

AARP is fighting to save you money on your utility bills – so you can keep your hard-earned money in your pocket.

Sign our petition to tell the Florida Public Service Commission that Florida Power & Light's proposed rate increase is not justified.

Posibilidades a tu alcance

Alzen su voz antes que le aumenten sus tarifas!

Florida Power & Light (FPL) le está pidiendo a la Comisión de Servicios Públicos un aumento de \$1.34 billones en las tarifas de electricidad. AARP cree que este aumento no es justificado.

FPL ya tiene ganancias de más de 9 por ciento en un negocio que está protegido de la competencia por la ley estatal. Ahora quieren rendimientos de hasta el 12.5 por ciento.

Mientras tanto, muchos de los residentes de la Florida que pagan tarifas de FPL luchan por ganar 2 por ciento de sus ahorros e inversiones. Para los consumidores, el aumento de la tarifa propuesta significa un aumento anual de \$160 dentro de cuatro años. FPL también está tratando de aumentar la parte fija de su factura de servicios públicos, una cuota que debe pagar antes de que usted incluso encienda las luces.

AARP lucha para ahorrarle dinero en sus facturas de servicios públicos – para que usted pueda mantener su dinero en el bolsillo.

Firma nuestra petición para decirle a la Comisión de servicio público de la Florida que ese aumento de tarifa de Florida Power & Light no está justificado.

Table with 3 columns: Nombre, Ciudad, Correo Electrónico / Numero de Teléfono. Contains handwritten entries for Rosa Peardumu, Caridad Gonzalez, and Joe Leimansa.

Alzen su voz antes que le aumenten sus tarifas!

Florida Power & Light (FPL) le está pidiendo a la Comisión de Servicios Públicos un aumento de \$1.34 billones en las tarifas de electricidad. AARP cree que este aumento no es justificado.

FPL ya tiene ganancias de más de 9 por ciento en un negocio que está protegido de la competencia por la ley estatal. Ahora quieren rendimientos de hasta el 12.5 por ciento.

Mientras tanto, muchos de los residentes de la Florida que pagan tarifas de FPL luchan por ganar 2 por ciento de sus ahorros e inversiones. Para los consumidores, el aumento de la tarifa propuesta significa un aumento anual de \$160 dentro de cuatro años. FPL también está tratando de aumentar la parte fija de su factura de servicios públicos, una cuota que debe pagar antes de que usted incluso encienda las luces.

AARP lucha para ahorrarle dinero en sus facturas de servicios públicos – para que usted pueda mantener su dinero en el bolsillo.

Firma nuestra petición para decirle a la Comisión de servicio público de la Florida que ese aumento de tarifa de Florida Power & Light no está justificado.
