DOCKET NO. 160001-EI
ORDER NO. PSC-16-0403-CFO-EI
ISSUED: September 21, 2016

ORDER GRANTING FLORIDA POWER & LIGHT COMPANY'S REQUEST FOR
CONFIDENTIAL CLASSIFICATION (DOCUMENT NO. 03189-16)

On May 24, 2016, pursuant to Section 366.093, Florida Statutes (F.S.), and Rule 25-22.006, Florida Administrative Code (F.A.C.), Florida Power & Light Company (FPL) filed its request for confidential classification (Request) of materials provided pursuant to Audit No. 16-020-4-2 (Audit) (Document No. 03189-16). This Request was filed in Docket No. 160001-EI.

Request for Confidential Classification

FPL contends that the materials provided pursuant to Audit No. 16-020-4-2, submitted in Docket No. 160001-EI and more specifically described in the tables in Attachment C to its Request, constitutes proprietary confidential business information entitled to protection under Section 366.093, F.S., and Rule 25-22.006, F.A.C. FPL asserts that this information is intended to be and is treated by FPL as private and has not been publicly disclosed.

FPL's justification for asserting that the information is confidential is found in more detail in Attachment C to its Request. FPL contends the information identify security measures; contain or constitute bids or other contractual data, the disclosure of which would impair FPL's efforts to contract for goods or services on favorable terms in the future; and contain information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information. FPL asserts, more specifically, the documents contain information concerning services provided for compliance with North American Electric Reliability Corporation Critical Infrastructure Protection requirements and amounts paid to vendors for those services.

FPL asserts that certain documents relate to internal auditing controls and reports of internal auditors, and should be protected by Section 366.093(3)(b), F.S. Additionally, FPL contends certain documents contain information related to security measures, systems or procedures and should be protected by Section 366.093(3)(c), F.S.

Ruling

Section 366.093(1), F.S., provides that records the Florida Public Service Commission (Commission) has found to contain proprietary business information shall be kept confidential and shall be exempt from Chapter 119, F.S. Section 366.093(3), F.S., defines proprietary confidential business information as information that is intended to be and is treated by the company as private, in that disclosure of the information would cause harm to the company's

ratepayers or business operations, and has not been voluntarily disclosed to the public. Section 366.093(3), F.S., provides that proprietary confidential business information includes, but is not limited to:

- (b) Internal auditing controls and reports of internal auditors
- (c) Security measures, systems, or procedures
- (d) Information concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms.
- (e) Information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information.

Upon review, it appears the above-referenced information satisfies the criteria set forth in Section 366.093(3), F.S., for classification as proprietary confidential business information. The information described above and in Attachment C appended to FPL's Request appears to be "internal auditing controls and reports of internal auditors", "security measures, systems or procedures", "[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms" and "[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information." Thus, the information identified in Document No. 03189-16 shall be granted confidential classification.

Pursuant to Section 366.093(4), F.S., the information for which confidential classification is granted herein shall remain protected from disclosure for a period of up to 18 months from the date of issuance of this Order. At the conclusion of the 18-month period, the confidential information will no longer be exempt from Section 119.07(1), F.S., unless FPL or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information.

Based on the foregoing, it is

ORDERED by Commissioner Art Graham, as Prehearing Officer, that Florida Power & Light Company's Request for Confidential Classification of Document No. 03189-16 is granted, as set forth herein. It is further

ORDERED that the information in Document No. 03189-16 for which confidential classification has been granted shall remain protected from disclosure for a period of 18 months from the date of issuance of this Order. It is further

ORDERED that this Order shall be the only notification by the Commission to the parties of the date of declassification of the materials discussed herein.

By ORDER of Commissioner Art Graham, as Prehearing Officer, this 21st day of September, 2016.
