MEK

FPUC: The Company asks for approval of a consolidated levelized conservation cost recovery factor for this period of \$.00100 per KWH.

ISSUE 4: What should be the effective date of the new conservation cost recovery factors for billing purposes?

FPUC: The factor should be effective beginning with the specified conservation cost recovery cycle and thereafter for the period January 2017 through December 2017. Billing cycles may start before January 1, 2017 and the last cycle may be read after December 31, 2017, so that each customer is billed for twelve months regardless of when the adjustment factor became effective.

RESPECTFULLY SUBMITTED this 27th day of September, 2016.
