Subject: Oppose rate hike

People,

I opposed the Amendment 1 and oppose this rate hike as well please read my statement carefully. I firmly believe if all citizens of Florida were to migrate to solar with battery back up the FPL company could better serve the businesses that have the greatest demand of electricity. This would certainly take the pressure off our nuclear reactors and fossil fuel powered electricity plants.

"I oppose FPL's rate hike request for gas-burning power plants that are unnecessary. I am particularly concerned that the new billion-dollar expenditures on gas plants in FPL's rate increase proposal will needlessly expose me and my fellow Floridians to more expensive electricity now and in the future. I want FPL to invest in affordable solar energy instead."

Sincerely,

*Kris Miles
