COMPLAINT INFORMATION

Complaint: Other Complaint against Duke Energy Florida, LLC d/b/a Duke Energy

Details:

I do not feel that the regular citizens of Florida should have to pay for the problems of the Crystal River Power plant and that should not be passed on to the consumer but absorbed by the co. Duke energy and the power companies make vast amounts of money for the stock holders and the CEO of companies that make millions and us retired people try and get by on social security. This is in regard to the fee of asset securitization charge that will be charged for the next 20 years. To those of you that make large sums of money it will not affect you but give the consumer a thought when you keep raising rates, and adding fees, we have no choice as to whom we get our power from unless we go solar. Thank You. Jan 4,2017
