Yes we are a customer of FPL. Our address is 131 Westrobin Ln. Palm Coast, Fl. 32164. Just to be clear, we have been pleased with FPL. I just don't understand how they can continue to basically ask for more and more money when it's hard enough for most people to get by.

I'm not sure if this is the correct contact but my concern is FPL. I understand that now they want to pass on the cost of restoring power after the hurricane on to the customers. If I'm not mistaking they were just granted a rate hike with another in the near future. Maybe I'm wrong but I believe that is their job to provide and restore power if necessary. For the life of me I don't understand how they could be granted another rate hike although temporary for doing what they are supposed to do. Could you please explain this to me. Thank you .
