**Subject:** Re: proposed Gulf Power rate increase

I am a citizen of Gulf Breeze, Florida in Santa Rosa County. I am writing to let you know that I am opposed to the proposed 7% rate increase requested by Gulf Power. My wife and I live mostly from our Social Security retirement income. For 2017 we received a 3% COL increase in our Social Security checks which amounts to \$6.00 per month total. The increase proposed by Gulf Power would increase our electric bill by more than \$10.00 per month. This hardly seems fair. In addition, we are certain that increases charged to Gulf Power's commercial customers will in most cases be passed along to their customers further increasing our expenses. Oil prices have remained historically low creating a reduction in cost for electricity producers and we find it unreasonable to continue to raise rates each year faster than the rate of inflation. Please veto any increase for Gulf Power as it will certainly effect many Florida citizens like my wife and I in a negative way.

Thank you,

Edward W. & Rita A. Milstead
