Subject: Gulf Power Increase

To Whom It May Concern:

I oppose Gulf Power getting a rate increase higher than the cost of living....what are most people going to do when retired or on a fixed income? Should not have to dip into our savings every month to have lights and heat!

They need to come up with another way to decrease their cost....take away \$\$\$ from people getting raises that are higher than the cost of living increase each year and stop giving pensions and medical to the top tier...they can afford to pay more!
