That is correct. One account is a service for the construction company and one account is a residential account on a farm.

Sincerely,

Derick R Thomas
Director of Member and Public Relations
Clay Electric Cooperative

Rick,

Thank you for your response.

I'd like to confirm that the residential service is for a farm and that the commercial service is for the construction company that is, I believe, developing the land.

Thank you.

Sincerely

Sue,

Thank you for talking with me about your questions. I have received more information from our staff and will answer your questions in turn:

1. To clarify our position on when the transfers should be completed, we believe that the transfers should be completed within the twelve (12) month time frame given in the petition. We included the three year time frame in our customer letter first, because this is the standard letter that we have used in the past when dealing with much larger transfers involving hundreds of customers/members, and second, we felt like this time period would cover most reasonable delays that may occur in the petitioning and approval process. Given the simple nature of the services these two customers/members are receiving, the physical process of transferring them will be relatively straight forward and we are confident that they will be transferred within the twelve months after approval, if not earlier.
2. Clay will refund any deposits either as credits on the customer/member's final bill or send them a check.
3. CEC has received no negative comments from any members regarding the transfer.
4. As used by our staff at CEC, secondary service refers to the connection of service drops from the transformer to the meter of a member, as opposed to primary high voltage distribution lines.

I hope that this answers your questions. If you need any further clarification we would be happy to provide it.

Sincerely,

Rick Fabiani

Gentlemen,

Re: Joint petition for approval of territorial agreement in Alachua County by Clay Electric Cooperative, Inc. and the City of Newberry

I have four clarifying questions on your petition and response to staff's data request:

1. Paragraph 6 of the petition states that the customer transfers will be completed within 12 months of the effective date; however, both sample customer letters state that the transfers will be completed within three years of FPSC approval. Which is the correct time period? If the correct time period is 12 months, the customer letters will need to be resent.
2. How will customer deposits be handled for the customers who will be transferred, e.g., will Clay refund any deposits or transfer them to the City?
3. Since the filing of the petition, have any negative responses to the proposed customer transfers been received?
4. Your response to item 3 of staff's data request refers to "secondary service." Please explain what secondary service is.

Please respond no later than Tuesday, January 17, 2017.

Please feel free to call me at 850-413-6540 if you have any questions.

Sincerely,

Sue Ollila
