**Subject:** GP proposed rate increase

I and my spouse are opposed to the proposed base rate increase of 155% is outrageous and its to improve service and power outages ??/ does this apply to commercial, hotels, restaurants etc watch eating menus prices go up etc. and taking advantage of tourists and manufacturing etc. thumbs down for sure.

come on increase needs to be more reasonable and there's been rate hikes the last few yrs. when my wife gets a .20 cent raise and the GP employes and mgmt what pay raises are they getting.

I hope the bay county commission rejects the proposed increase and big petition i head will be setup by someone in the pblic eye or media poll. I will look at altenative sources in the future like solar power etc.
