## CONSUMER COMMENTS

My husband and I are Gulf Power residential customers.

I endorse the comments of the various Women - League of Women voters who testified and the Florida Office of Public Counsel, and the Florida Solar Choice rep. at the January 26 hearing.

It is clear that this base rate increase request is not justified and that in fact our counties under Gulf Power deserve a rate Decrease as compared to the rest of Florida and even countrywide.

Shifting any rate increase to the already too high base charge disproportionately impacts the poorest and the most efficient power users. It is the large power users who should pay higher rates.
