CONSUMER COMMENTS

In 2012 I invested in Solar Panels - 5kw system. I did receive the Gulf Power rebate, which was a wonderful incentive.

The rate increase should go to the power users that are not conservative. My rate goes to increasing Energy ^{charge} ~~cost~~ element.

The fixed rate increase (for having power) will be a burden on many N.W. Florida users - This increases their bills close to 30.⁰⁰/month.

Do Not approve this increase in the Base Charge. Consider increasing energy charge -
