Subject: Gulf Power

To whom it may concern, it is truly disconcerting that we pay so much more for our electricity than the rest of the state. There is not a good reason why Gulf Power should be allowed to increase the rate of our service. If anything they should be made to lower their rates so as to be more in line with the rest of the state. My wife and myself are teachers in Santa Rosa County and we do not need another financial strain put on our paychecks. Thank you for your concern on this issue.
