Subject: Proposed electric rate increase

Hello,

I am Lawrence Logue. I live at 2150 W. Belmont Street, Unit B, Pensacola, Florida 32505.

I am 62 years old and soon will be retiring here, and living off Social Security. As a result, any rate increase will mean, I will have less of my income for food, medicine and the other necessities of my daily life. As it stands now electrical costs are about 10% of my monthly budget. That percentage is likely to increase as I spend more of my time at home in retirement. Please help me keep my budget under control by not raising my electricity costs.

Thank you for your time.

Lawrence S. Logue
