Subject: Gulf Power increase request

SAY NO to Gulf Power on the rate increases. They will be making a lot of money in NW Florida with the installation of solar panels as their output of overhead expenses will decrease as they no longer have to support 18,000 homes with the purchase of fossil fuels. This is a total outrage - many homeowners are decreasing their need for Gulf Power services by going to Gas which is more efficient or solar, wind & geothermal to name a few. STOP them from raping JOHN Q PUBLIC and lining their pockets with astronomical profits at the coast of the PUBLIC family in the state of Florida.

very respectfully,
Anna Lohr
