To the Florida Public Service Commission:

I am outraged to learn of the fixed service fee increase proposed by Gulf Power Company to the Florida Public Service Commission. Electricity rates here in Florida are already too high, and this service fee to inflate the bottom line for Gulf Power Company is outrageous. In the face of falling energy prices across all spectrums, Gulf Power should be dropping rates and lowering fees. There is no excuse for this increase.

Please do your part to protect consumers here in Florida. Our cost of living, because of inflated energy prices, is unacceptable.

Cordially,

Leslie N Hines, III
