**Subject:** Proposed Gulf Power Rate Increase

Please vote against the base rate increase proposed by Gulf Power. I am a widower with very limited income--my annual adjusted gross income is less than \$15000. I cannot afford to pay more than what I am already paying Gulf Power. Their rates are already one of the highest, if not the highest, utilities in Florida. I understand they want this extra money to buy power from a coal fired plant in Alabama. The reason they gave first was to make their system more reliable. Outrageous!!! That should be included in they normal cost of doing business without extra income. This is mismanagement of their resources, and I believe it is really driven by a desire to increase the value of their stock on the stock exchange. Please make them become more competitive by better management of their existing resources, and seeking to lower rates instead of constantly seeking to raise rates. I don't get to raise my Social Security just because I want to. I have to live within my means and they should do likewise

Tom Allen
