**NATURAL GAS VEHICLE SERVICE-2 (continued)**

The total charge, consisting of the Distribution and Dispensing Charge, Company's Gas Cost, and taxes, shall be as determined by Company; provided, however, that the Company's Gas Cost component of the charge shall not be less than Company's monthly Purchased Gas Adjustment ("PGA") factor in effect at the time of the sale to Customer. The total charge to the Customer, (less the Distribution and Dispensing Charge and applicable taxes) will be accounted for by Company as recovery of gas cost in Docket No. 130003-GU (the annual PGA docket) and successor dockets.

Any service provided by Company pursuant to this Option 3 shall be provided at the times and on terms and conditions determined by Company.

**Special Conditions:**

1. A separate meter or sub-meter may be requested by the Customer or required by Company; in which case the Customer will pay the cost of the meter (which shall remain the property of the Company) and its installation.
2. The collection and remittance of any federal or state or local tax imposed on CNG or the dispensing thereof for motor fuel shall be the responsibility of the Customer or Retailer, unless otherwise provided for in Customer's agreement with Company.
3. NGV service is not available for resale by a residential customer.
4. If Customer has elected Option 2 or Option 3, Company shall not be responsible in any manner for the use, care or handling of natural gas once it is delivered to a natural gas vehicle.
5. If the Company, alone or in partnership with another entity, responds to a competitive situation of a government agency or commercial customer that will consume quantities greater than 100,000 Therms per year, the Company has the option to provide NGV service, equipment, facilities, and distribution at rates and charges set on an individual Customer basis via a special contract as long as the rate is above incremental cost with a reasonable return. At the Company's discretion it may recover the difference between the otherwise applicable tariff rate and the approved special contract rate under this rate provision through Company's Competitive Rate Adjustment Clause set forth on Sheet No 7.101-5.
6. If a Customer desires to phase in the use of CNG as motor fuel and is acquiring and placing into service vehicles fueled by CNG over a period of years, the Monthly Facilities Charge may, in the discretion of Company, be phased in over the term of the agreement between Customer and Company. However, the net present value of the revenue from the phased-in charges, discounted at the Company's then authorized rate of return, shall be set equal to the net present value of the revenue that would have been generated over the term of the agreement if the Monthly Facilities Charge had not been phased in. Any such phase in shall be included in the agreement between Customer and Company.
