Docket No. 160239-WS

SUMMARY: To promote clarity and consistency among Commission rules, Rule 25-30.445, F.A.C. would be amended to require in an application for a limited proceeding that a water utility must provide copies of all customer complaints that it has received during the past five years regarding secondary water quality standards set by the Department of Environmental Protection, along with its most recent secondary water quality test results. Rule 25-30.445, F.A.C. would also be amended to eliminate the requirement that a water and/or wastewater utility shall not file a limited proceeding application for underearnings in lieu of a general rate case.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has been prepared by the Agency.

The SERC examined the factors required by Section 120.541(2), FS, and concluded that the rule amendment will not have an adverse impact on economic growth, business competitiveness, or small business and that additional transactional costs, if any, to individuals and entities required to comply with the rule are expected to be de minimis. The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: based upon the information contained in the SERC.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.
