CONSUMER COMMENTS
① LP Waterworks, Inc. should have a "Snowbird" Rate for water + wastewater. The homeowner would be responsible to notify LP Waterworks of their arrival & departure dates each time to receive this "rate" of billing. It would save the company time in that these meters would not have to be read each month - this would also save the company money in salaries. It would save the homeowner money which would make them very happy. This "Snowbird Rate" should be approximately one half of their normal rate.
② L.P. Waterworks should install electronic meters that could be read from a vehicle driving by each meter. Again saving meter reader's time + money + more efficient.
