Subject: Duke Energy Florida

Please turn down the Duke Energy Florida request for a price increase. It is just not fair for their consumers to pay for all their mistakes!! If I make a mistake I have to pay for it myself. Why should they be able to pass the costs of their mistakes over to their customers and not their shareholders, who receive the benefits of any profits Duke Energy of Florida make? That idea is just wrong for their customers because we do not have the ability to use another company!! They do have a monopoly after all.
