BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

Petition of BellSouth Telecommunications, LLC)
d/b/a AT&T Florida to Relinquish Eligible) Docket No. 170082-TP
Telecommunications Carrier Status)

AT&T FLORIDA'S RESPONSES TO STAFF'S FIRST DATA REQUEST

BellSouth Telecommunications, LLC d/b/a AT&T Florida hereby submits its responses to Staff's first set of data requests.

REQUEST: In its proceeding in Tennessee, did AT&T state in writing to the Tennessee Regulatory Authority that AT&T would continue to provide "universal service" in its proposed relinquishment area in Tennessee? If so, please provide the document and cite the location in the document making this claim.

RESPONSE:

The only documents AT&T Tennessee filed in its ETC relinquishment proceeding before the Tennessee Regulatory Authority were its Verified Petition (and exhibits), and, later, revised exhibits. The Verified Petition referred to "universal service" in paragraphs 3, 6, and 10, generally to explain how universal service funding has worked in the past and how the FCC's change to universal service funding was one of the reasons for AT&T Tennessee's ETC relinquishment. Also, like the AT&T ILECs' ETC relinquishment requests in other states, the Verified Petition in Tennessee contained a footnote 9 on page 5, which stated that "AT&T will not discontinue *any* service as a result of the Authority granting this Petition."

Responsible Person: Not applicable as response addresses legal issues.

REQUEST: On page 10, footnote 15 of its Petition in this docket, AT&T Florida states that certain requirements of 47 U.S.C. § 214(e)(4) are “inapplicable to this Petition because, as noted in Section III.C, AT&T will not discontinue *any* service as a result of the Commission granting this Petition.”

- a. Does AT&T Florida claim that it will continue to provide “universal service” as the term is used in 47 U.S.C. § 214(e)(4) and 47 C.F.R. § 54.205 in its proposed relinquishment areas? Please explain your answer.

RESPONSE:

As stated in paragraphs 6, 7, and 20 of AT&T Florida's Petition, AT&T Florida is not discontinuing *any* service by virtue of its Petition here. Rather, AT&T Florida will continue to offer and provide retail legacy voice service across its entire service territory (including in the relinquishment area) at its standard rates (including applicable surcharges, fees, and taxes). AT&T Florida also will continue to comply with applicable service obligations of federal and state law across its entire service territory (including in the relinquishment area), unless and until it separately obtains any necessary permission to stop providing retail legacy voice service. Petition, ¶¶ 6, 20. The only consumer impact of relinquishment is that Lifeline-eligible consumers in the relinquishment area will no longer receive a Lifeline discount on voice service from AT&T Florida.

Question 2(a) refers to the term “universal service” in 47 U.S.C. § 214(e)(4)

and 47 C.F.R. § 54.205(b). Generally speaking, the term “universal service” refers not to a specific service, but rather to the goal that all Americans should have access to communications services and to the programs, policies, and funding mechanisms used to support that goal. <https://www.fcc.gov/general/universal-service>; *see generally* 47 U.S.C. § 254. As an ETC, AT&T Florida has been eligible to receive federal universal service funding in accordance with 47 U.S.C. § 254, in exchange for which it has been required to offer and advertise supported services pursuant to 47 C.F.R. § 54.201(d) and meet the obligations associated with the universal service programs in which it participates. *See* 47 U.S.C. § 214(e)(1). As a result of regulatory changes, however, AT&T Florida no longer receives federal high cost funding for the relinquishment area. Petition, ¶¶ 11-13. That change, along with marketplace changes, led to AT&T Florida's Petition. The granting of the Petition will relieve AT&T Florida of the obligations associated with being an ETC in the relinquishment area. AT&T Florida's relinquishment will not affect the ability of other ETCs to participate in the federal universal service program, including Lifeline, or the amount of universal service support available in Florida.

The specific concern in the portion of Section 214(e)(4) and FCC Rule 54.205(b) referenced in question 2(a) is with “ensur[ing] that all customers served by the relinquishing carrier will continue to be served” after a carrier relinquishes its ETC

status for an area. As stated in footnote 15 of the Petition, that concern does not exist in this proceeding, so the cited language is inapplicable. Unlike a carrier that relinquishes its ETC status and goes out of business or exits an area entirely, AT&T Florida will not discontinue *any* service in the relinquishment area as a result of its Petition. Petition, ¶¶ 6, 7, 20. Accordingly, *no customer will be left without service as a result of AT&T Florida's ETC relinquishment.* Likewise, no competitive ETC will need to take any action – much less build any facilities – to ensure that customers in the relinquishment area continue to have access to service. AT&T Florida will continue to serve the same customers it serves today unless and until they switch to another provider.

Customers in the relinquishment area that choose to switch carriers will have many options. Competing carriers in Florida have had no problem serving the vast majority of the state's voice service customers. In fact, from 2009 through the end of 2016, AT&T Florida's retail residential voice lines declined by about 95% as customers flocked to other providers. Petition, ¶ 15. There also is no issue regarding the ability of eligible customers in the relinquishment area to keep receiving voice service with a Lifeline discount. In recent years Lifeline customers have expressed their preference by switching to ETCs other than AT&T Florida in large numbers. Competing ETCs now serve hundreds of thousands of Lifeline customers, more than 99% of the statewide

total, while AT&T Florida serves less than one percent of Lifeline customers. Petition, ¶ 25 & Ex. C. Moreover, every wire center in the relinquishment area is served by at least seven ETCs other than AT&T Florida. There is no doubt that competing carriers and competing ETCs in the relinquishment area are ready and able – and presumably eager – to serve any and all Lifeline customers who elect to leave AT&T Florida after relinquishment.

Finally, it bears noting that if AT&T Florida ever did seek to discontinue providing retail legacy voice service in the relinquishment area, federal safeguards would come into play. Specifically, AT&T Florida could not stop providing basic legacy residential voice service unless and until it filed a petition with the FCC under 47 U.S.C. § 214(a).¹ AT&T Florida would then have to demonstrate to the FCC that “neither the present nor future public convenience and necessity will be adversely affected” by discontinuing service.

To determine whether a proposed discontinuance would adversely affect the public interest, the FCC employs a five-factor balancing test that analyzes: (1) the

¹ Pursuant to federal law, common carriers such as AT&T Florida are required to furnish service throughout their territory “upon reasonable request” on “just and reasonable” terms and conditions and in a nondiscriminatory fashion. *See* 47 U.S.C. § 201. Prior to discontinuing retail legacy voice service, AT&T Florida would need to file a request with the FCC to discontinue service. *See* 47 U.S.C. § 214(a) and 47 C.F.R. § 63.71.

financial impact on the common carrier of continuing to provide the service; (2) the need for the service in general; (3) the need for the particular facilities in question; (4) increased charges for alternative services; and (5) the existence, availability, and adequacy of alternatives.² And in the *2016 Technology Transitions Order*, the FCC concluded that the existence, availability, and adequacy of alternatives (fifth factor) has heightened importance in the context of technology transitions.³ The FCC also is expressly authorized to impose conditions on the approval of any discontinuance request that “in its judgment the public convenience and necessity require.” 47 U.S.C. § 214(c).

State commissions play a vital role in any Section 214(a) discontinuance request. The FCC’s rules ensure that the affected state is provided notice and has the opportunity to participate in any Section 214(a) proceeding involving a discontinuance of basic residential voice service. Specifically, Section 63.71(a) of the FCC’s rules

² *Applications for Authority Pursuant to Section 214 of the Communications Act of 1934 to Cease Providing Dark Fiber Service*, Memorandum Opinion and Order, 8 FCC Rcd. 2589, 2600, ¶ 54 (1993), remanded on other grounds, *Southwestern Bell v. FCC*, 19 F.3d 1475 (D.C. Cir. 1994).

³ *Technology Transitions*, Declaratory Ruling, Second Report and Order, and Order on Reconsideration, 31 FCC Rcd. 8283 (rel. July 15, 2016) (“*2016 Technology Transitions Order*”). In that Order, the FCC adopted optional streamlined processes for Section 214(a) discontinuance applications involving a technology transition for legacy voice service. *Id.* at ¶ 64

requires AT&T Florida to send a copy of any Section 214(a) application seeking discontinuance to the Governor of Florida, and the State then has a "right . . . to be heard" on all issues and concerns in that proceeding. 47 U.S.C. § 214(b). Moreover, Congress authorizes a state commission to seek an injunction in "any court of competent jurisdiction" if it believes FCC approval of a discontinuance request is not in the public interest. 47 U.S.C. § 214(c). Thus, as a practical matter, the FCC would not be able to approve any AT&T Florida request to discontinue basic residential voice service anywhere in Florida without notifying the Commission and providing the Commission with an opportunity to submit comments on whether such discontinuance could occur without harm to the public interest. And if the Commission disagrees with the FCC's conclusions, it has a statutory right to challenge the FCC in court.

- b. If the answer to question 2.a. above is "yes," why did AT&T Florida file a petition pursuant to 47 C.F.R. § 214(e)(4), "Relinquishment of universal service"?

RESPONSE:

AT&T Florida filed its Petition pursuant to 47 U.S.C. § 214(e)(4) and 47 U.S.C. § 54.205 because those are the provisions that give any ETC the right to "relinquish its designation as such a carrier in any area served by more than one [ETC]," and establish that state commissions "shall permit" such relinquishment. This Commission has allowed carriers to relinquish their ETC status under those provisions, just as other state commissions have granted AT&T ILECs' petitions to relinquish their ETC status. Petition, ¶¶ 21-22 & nn.16-17. In addition to the orders cited in the Petition, on April 17, 2017, the Mississippi PSC issued the attached order (Attachment 1) confirming AT&T Mississippi's ETC relinquishment, and on May 3, 2017, the South Carolina PSC issued the attached summary order (Attachment 2) approving AT&T South Carolina's ETC relinquishment. As noted in the response to question 2(a), AT&T Florida's Petition will not result in AT&T Florida discontinuing any service to any customer, but it will result in AT&T Florida being relieved of the obligations of an ETC in the relinquishment area, where it no longer receives any high cost universal service funding. Petition, ¶ 13.

- c. If the answer to question 2.a. above is "yes," please explain how AT&T Florida would provide "universal service" as the term is used in 47 U.S.C. § 214(e)(4) and 47 C.F.R. § 54.205 without providing Lifeline service.

RESPONSE:

The term "universal service" refers not to a specific service, but rather to the goal that all American should have access to communications services and to the programs, policies, and funding mechanisms used to support that goal. <https://www.fcc.gov/general/universal-service>; *see generally* 47 U.S.C. § 254. As explained above in response to question 2(a) and in the Petition, granting AT&T Florida's relinquishment of ETC status will not result in AT&T Florida discontinuing any legacy voice service to customers in the relinquishment area, will not remove AT&T Florida's federal common-carrier obligations to provide voice service upon reasonable request on just and reasonable terms and on a nondiscriminatory basis, and AT&T Florida could not discontinue service in the relinquishment area without obtaining all necessary regulatory approvals. AT&T Florida simply would no longer serve as an ETC or provide a Lifeline discount in that area. Customers in the relinquishment area that desire to keep a Lifeline discount on their voice service will have at least seven other ETCs to choose from and will receive advance notice of AT&T Florida's relinquishment. Petition, ¶¶ 25-28 & Ex. F.

- d. If the answer to question 2.a. above is "no," please explain how the statement in footnote 15 applies to AT&T's Petition.

RESPONSE:

See responses to questions 2(a)-(c) above.

Responsible Person: AT&T Legal

REQUEST: Please provide the most recent total number of Lifeline customers currently being served by AT&T Florida in each of a) the proposed retained service areas, and b) the proposed relinquished service areas.

RESPONSE:

See Exhibit C to AT&T Florida's Petition for information as of year-end 2016.

Responsible Person: AT&T Legal

REQUEST: In AT&T's relinquishment proceeding in Wisconsin, The Public Service Commission of Wisconsin stated:

Both the Commission and AT&T will need to develop the processes and geographical information databases necessary to allow identification of eligible customers. It is important that both AT&T and the Commission databases identify the same areas. This requires that the computer mapping data, such as shape files, used by both the Commission and AT&T are consistent and correct. To this end, it is reasonable to require AT&T to work with Commission staff and provide access to information and programming data in order for Commission staff to develop a tool to facilitate ETC tracking within AT&T's wire centers are partial census blocks.

- a. Please describe the process established in Wisconsin?
- b. Do you envision a similar process in Florida?

RESPONSE:

- a. At this time no process has been established with the Wisconsin Commission staff.
- b. AT&T Florida's Petition does not request or contemplate such a process. Nor has any other state requested such a process when granting the AT&T ILECs' ETC relinquishment petitions. AT&T Florida would be willing to discuss appropriate parameters of such a process with the Staff in Florida if it is deemed necessary.

Responsible Person: Not applicable as response addresses legal issues.

REQUEST: Please refer to page seven of Exhibit C to AT&T's Petition in this docket (CETC's Designated in AT&T Florida's Current ETC Service Area). For each CETC listed, please designate whether the CETC interconnects with AT&T Florida via UNEs, resale, both, or another arrangement (please describe).

RESPONSE:

The list of CETCs in Exhibit C includes facilities-based competitive local exchange carriers ("CLECs"), facilities-based Commercial Mobile Radio Service ("CMRS") Providers, and firms that resell the services of facilities-based carriers. AT&T Florida, as an ILEC under § 251(h) of the federal Telecommunications Act of 1996 ("1996 Act"), interconnects and exchanges traffic with facilities-based CLECs and CMRS providers pursuant to Commission-approved interconnection agreements ("ICAs") pursuant to Sections 251-252 of the 1996 Act. AT&T Florida's ICAs provide CLECs the opportunity to purchase unbundled network elements ("UNEs") and to resell AT&T Florida's telecommunications services at the Commission-approved wholesale resale discount. CMRS providers, per FCC rules, are not entitled to purchase UNEs.

Additionally, AT&T Florida notes that the FCC updated its rules to eliminate ILECs' obligation to resell Lifeline and/or Link-Up discounted retail offerings at the

wholesale resale discount under § 251(c)(4) of the 1996 Act. *In the Matter of Lifeline and Link Up Reform and Modernization*, 30 FCC Rcd. 7818 (rel. June 22, 2015). The FCC also eliminated any reimbursement to AT&T Florida for any resold Lifeline and/or Link-Up services. This change was effective on August 15, 2016, and AT&T Florida provided notice to all CLECs. After August 15, 2016, CLECs could choose to resell AT&T Florida's access lines and to seek reimbursement for the Lifeline discount themselves after receiving ETC status.

The following table provides a link to ICAs that are in effect between AT&T Florida and the referenced CETC, as well as noting the type of ICA:

CETC	Type of Provider	Type of ICA
i-wireless, LLC (Access Wireless)	Assumed CMRS Reseller	Not Applicable
Virgin Mobile USA, L.P. (Assurance Wireless)	Assumed CMRS Reseller	Not Applicable
<u>Cox Florida Telecom LP</u> d/b/a Cox Communications	CLEC	Interconnection, UNEs, Resale
<u>Global Connection of America</u> (of Georgia)	CLEC	Resale Only
<u>Knology of Florida, Inc.</u> d/b/a WOW! Internet, Cable and Phone	CLEC	Interconnection, UNEs, Resale

CETC	Type of Provider	Type of ICA
<u>Phone Club Corporation</u>	CLEC	Resale Only
TracFone Wireless, Inc. (SafeLink Wireless)	CMRS Reseller	Not Applicable
<u>Tele Circuit Network Corporation</u>	CLEC	Interconnection, UNEs, Resale
<u>T-Mobile USA South LLC</u> NOTE: ICA is with legal entity T-Mobile USA, Inc.	CMRS	Interconnection

Responsible Person: Not applicable as response addresses legal issues.

**BEFORE THE
MISSISSIPPI PUBLIC SERVICE COMMISSION**

IN THE MATTER OF: VERIFIED PETITION)	
OF AT&T MISSISSIPPI FOR AN ORDER)	
CONFIRMING RELINQUISHMENT OF ITS)	DOCKET NO. 2016-UA-213
ELIGIBLE TELECOMMUNICATIONS)	
CARRIER DESIGNATION IN SPECIFIED)	
AREAS)	

**ORDER CONFIRMING AT&T MISSISSIPPI'S RELINQUISHMENT OF ITS ELIGIBLE
TELECOMMUNICATIONS CARRIER DESIGNATION IN SPECIFIED AREAS**

This matter came before the Mississippi Public Service Commission ("Commission" or "MPSC") for consideration of the Verified Petition of AT&T Mississippi for an Order Confirming Relinquishment of Its Eligible Telecommunications Carrier Designation in Specified Areas ("Petition") filed by AT&T Mississippi¹ ("AT&T" or "Company").

On October 28, 2016, AT&T filed its Petition to relinquish its ETC designation for a portion of its service area in the State of Mississippi. AT&T is currently designated as an eligible telecommunications carrier ("ETC") in the wire centers listed in Exhibit A to AT&T's Petition, which are also depicted on the map attached as Exhibit A to the Commission's order designating service areas in Docket No. 1997-AD-0552.² AT&T seeks to relinquish its ETC designation where the Company is not eligible for high-cost universal service support, which is the entirety of its service area except for the area identified in Exhibit B to AT&T's Petition. Exhibit B to AT&T's Petition identifies the census blocks³ where the Company remains eligible for high-cost support and therefore plans to retain its ETC designation, including Connect America Fund Phase

¹ BellSouth Telecommunications, LLC d/b/a AT&T Mississippi f/k/a BellSouth Telecommunications, Inc.

² Notice of the Designation of Service Areas To Be Served by Non-rural Carriers Pursuant To Section 214 of the Telecommunications Act of 1996 (TA96) for the Purpose of Universal Service Obligations and Support Mechanisms, Order, Docket No. 1997-AD-0552 (December 16, 1997).

³ Connect America Fund support is distributed on a federally-determined census block basis.

II ("CAF II") eligible census blocks and CAF II extremely high-cost census blocks.⁴ AT&T's Petition represents that the Company will file a new request for ETC designation if the Company participates in the FCC's CAF II reverse auction and is awarded additional extremely high-cost service areas through that competitive bidding process.⁵ AT&T requests a July 5, 2017, effective date of relinquishment, to follow the final installment of the Company's CAF Phase I Incremental Support.

The Commission, being fully apprised in the premises, and having considered the record before it, as authorized by law and upon the recommendation of the Mississippi Public Utilities Staff ("Staff"), finds as follows:

AT&T is an incumbent local exchange company and defined as a price cap company serving rural and urban areas in Mississippi. The Company obtained its ETC designation in 1997 in Docket No. 1997-AD-0552. AT&T's relinquishment of its ETC designation in specified areas in Mississippi is prompted by changes to the universal service program made by the Federal Communications Commission ("FCC"), revising the approach to disbursing high-cost universal service support. Under the new approach, established in the FCC's CAF II, AT&T will receive funding to support and deploy broadband-capable networks in FCC-identified high-cost census blocks in its service area.

⁴ In satisfying its CAF II requirements, AT&T is permitted to substitute locations in FCC-identified extremely high-cost census blocks for locations in CAF II eligible census blocks (47 C.F.R §54.310(c)(1)).

⁵ AT&T Petition at fn. 7; see also, Report and Order and Further Notice of Proposed Rulemaking, *Connect America Fund*, WC Docket No. 10-90 et. al., FCC 16-64, 2016 WL 3034969, ¶¶ 149-156 (May 25, 2016) (establishing the ETC designation process for CAF II auction winning bidders).

The basis for allowing relinquishment of those census blocks where AT&T is not receiving high-cost support is set forth in 47 U.S.C §214(e)(2) and (4) and 47 C.F.R. §54.205.

Section 214(e)(4) states that:

A State Commission . . . shall permit an eligible telecommunications carrier to relinquish its designation as such a carrier in any area served by more than one eligible telecommunications carrier. An eligible telecommunications carrier that seeks to relinquish its eligible telecommunications carrier designation for an area served by more than one eligible telecommunications carrier shall give advance notice to the State Commission . . . of such relinquishment. Prior to permitting a telecommunications carrier designated as an eligible telecommunications carrier to cease providing universal service in an area served by more than one eligible telecommunications carrier, the State commission . . . shall require the remaining eligible telecommunications carrier or carriers to ensure that all customers served by the relinquishing carrier will continue to be served, and shall require sufficient notice to permit the purchase or construction of adequate facilities by any remaining eligible telecommunications carrier. The State commission . . . shall establish a time, not to exceed one year after the State commission . . . approves such relinquishment under this paragraph, within which such purchase or construction shall be completed.

47 U.S.C §214(e)(4).

Exhibit C to AT&T's Petition lists ETCs that are designated in the areas to be relinquished by AT&T, and identifies at least eight other ETCs in each wire center in the relinquishment area. Although many of the ETCs identified are wireless and prepaid low-income wireless providers, rather than wireline facilities-based providers such as AT&T, the FCC is moving away from telephony and towards broadband Internet access service,⁶ favoring a change in customers' use of technology over policies that promote the retention of wireline services. In addition, pursuant to Section 47 C.F.R 54.403(a)(2)(iv), standalone voice service, or voice services not bundled with broadband which meets the minimum standard set forth in §54.408, will not be eligible for Lifeline support after December 1, 2021, unless the FCC has previously determined otherwise.

⁶ Third Report and Order, Further Report and Order, and Order on Reconsideration, FCC 16-38, (April 27, 2016), https://apps.fcc.gov/edocs_public/attachmatch/FCC-16-38A1.pdf.

Prior to permitting a telecommunications provider to cease universal service in an area served by more than one ETC, the FCC requires the assurance that all customers served by the relinquishing carrier will continue to be served, and that sufficient notice is provided to the remaining ETC(s) to permit the purchase or construction of adequate facilities.⁷ While AT&T must establish that the relinquished area is served by more than one ETC, the requirements related to continuation of service and adequate notice are not applicable in this matter because AT&T will not discontinue any service as a result of the Commission confirming partial relinquishment of the Company's ETC status.⁸ The only difference will be that the Lifeline discount will no longer be available for AT&T services in the relinquished areas, however, other ETCs serving those areas may provide the discount should a customer wish to seek it through another service provider.

According to AT&T, as of December 31, 2016, the Company served 1,582 Lifeline customers which are delineated by 1,097 customers in its proposed relinquishment area and 485 in its retained area. AT&T's Petition sets forth the method by which the Company's affected Lifeline customers will be provided notice that they may keep their AT&T service but will no longer receive the Lifeline benefit, or that they may change to another ETC provider.

ETC designation requires that a carrier provide essential telecommunications services, as defined by the FCC in 47 C.F.R. §54.101 and §54.201, and must provide service to all requesting customers, advertise the availability of that service, and provide Lifeline service to low-income customers. Federal high-cost service support has evolved over time to new forms of support and, as discussed above, from a focus on voice to broadband services.

⁷ *Id.*

⁸ AT&T Petition at ¶ 14.

AT&T has filed similar petitions in six other states, including Alabama, Kansas, Missouri, Oklahoma, Tennessee, and Wisconsin.⁹ The petitions have been approved in all states except Kansas, which is still pending.

Staff sought guidance from the FCC and National Association of Regulatory Utility Commissioners ("NARUC"). Staff also contacted the Universal Service Administrative Company to confirm that ETC information provided by census block, rather than by wire center as historically presented, would be accepted and received confirmation that it would.

AT&T's Petition supports federal policy by aligning AT&T's ETC designated area with modern high-cost support rules based on census blocks. AT&T meets the objective test for relinquishing its ETC status throughout the specified areas. Subject to conditions set forth and upon approval by the MPSC, AT&T will remain an ETC in the census blocks listed in Exhibit B of its Petition.

IT IS, THEREFORE, ORDERED THAT:

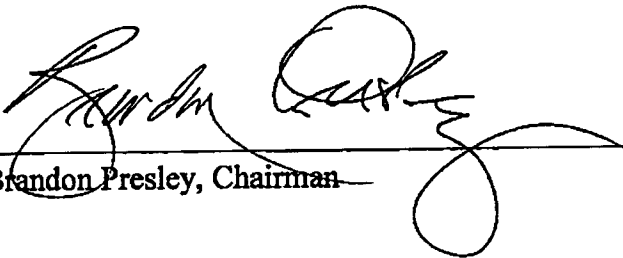

1. AT&T's relinquishment of its ETC designation in all portions of its ETC designated area except those identified in Exhibit "B" to AT&T's Petition is hereby confirmed.
2. AT&T may stop enrolling new Lifeline customers in the area where it is relinquishing its designation following the issuance of this Order.
3. The effective date of relinquishment of AT&T's ETC status in the specified areas is July 5, 2017.
4. AT&T shall provide advance notice of the relinquishment of its ETC designation to affected Lifeline subscribers in the manner set forth in its Petition.

⁹ Docket No. 25980 (Alabama), Docket No. KCC 17-SWBT-158-MIS (Kansas), File No. IO-2017-0132 (Missouri), Cause No. PUD 201600455 (Oklahoma), Docket No. 16-00123 (Tennessee), and Docket No. 6720-TI-225 (Wisconsin).

This Order shall be deemed issued on the day it is served upon the parties herein by the Executive Secretary of this Commission who shall note the service date in the file of this Docket. Chairman Brandon Presley voted aye; Vice-Chairman Cecil Brown voted aye; and Commissioner Samuel F. Britton voted aye.

DATED this the 13th day of April, 2017.

**PUBLIC SERVICE COMMISSION OF SOUTH CAROLINA
COMMISSION DIRECTIVE**

ADMINISTRATIVE MATTER	<input type="checkbox"/>	DATE	<u>May 03, 2017</u>
MOTOR CARRIER MATTER	<input type="checkbox"/>	DOCKET NO.	<u>2017-109-C</u>
UTILITIES MATTER	<input checked="" type="checkbox"/>	ORDER NO.	<u>2017-276</u>

THIS DIRECTIVE SHALL SERVE AS THE COMMISSION'S ORDER ON THIS ISSUE.

SUBJECT:

DOCKET NO. 2017-109-C - Petition of BellSouth Telecommunications, LLC d/b/a AT&T South Carolina for Order Confirming Relinquishment of Eligible Telecommunications Carrier Designation In Specified Areas - Staff Presents for Commission Consideration BellSouth Telecommunications, LLC d/b/a AT&T South Carolina's Petition for an Order Confirming Relinquishment of Eligible Telecommunications Carrier Designation in Specified Areas.

COMMISSION ACTION:

Grant the Petition for an Order Confirming Relinquishment of Eligible Telecommunications Carrier (ETC) Designation in Specific Areas filed on behalf of BellSouth Telecommunications, LLC d/b/a AT&T South Carolina. The Company is participating in the FCC's Connect America Fund II (CAF II) which enables it to bring more broadband to high cost, primarily rural areas in South Carolina. AT&T is retaining its ETC designation in certain census blocks for which it is eligible to receive CAF II funding (CAF II Census Blocks) and, pursuant to its right under federal law, AT&T is relinquishing its ETC designation for all of the remaining areas in which it is currently designated an ETC, and will no longer receive federal Lifeline support. The relinquishment areas are served by at least one other ETC. AT&T will continue to offer and provide legacy voice service in all of its service territory, including the relinquishment areas. The Company will provide ample advance notice to all affected customers that Lifeline Discounts will no longer be provided, and the customers can choose to receive Lifeline discounts from another ETC. At the end of 2016, AT&T was serving less than 1% of the 191,812 Lifeline subscribers in South Carolina. The relinquishment becomes effective on October 12, 2017, and AT&T will stop enrolling customers from the relinquishment areas in the Lifeline program no sooner than August 11, 2017.

RECORDED BY: J. Schmieding

COX FLORIDA TELCOM, L.P.

Response dated May 15, 2017

to FPSC CETC Data Request in Docket No. 170082-TP

- 1. Please verify that your company is a designated ETC in the service areas that AT&T Florida has identified in Exhibit C.**

Per the ETC Petitions of Cox Florida Telcom, L.P. ("Cox") approved in 2012 by the Commission in Dockets 120165-TP and 120175-TP, Cox's service areas consist of only the following AT&T-specific service areas listed in Exhibit C:

ARCHFLMA	ARCHER
CNTMFLLE	CANTONMENT
GSVLFLMA	GAINESVILLE
GSVLFLNW	GAINESVILLE
NWBYFLMA	NEWBERRY
PNSCFLBL	PENSACOLA
PNSCFLFP	PENSACOLA
PNSCFLHC	PENSACOLA
PNSCFLPB	PENSACOLA
PNSCFLWA	PENSACOLA

Although there are four additional rate centers (Gulf Breeze, Holley-Navarre, Milton, and Pace) in which Cox currently owns a number block, Cox has no physical presence in these rate centers and these numbering resources are in connection with service to existing commercial customers with specific, "out-of-footprint" needs, such as situations requiring remote call forwarding for satellite offices. In any case, Cox has no facilities in these four or any other such rate centers and therefore can provide no residential service other than within the rate centers we have listed above.

- 2. Are you currently providing service to customers in all of the identified areas? If no:**

- a. Please identify any wire centers where your company is not currently serving customers.**

Cox does not delineate its service areas by wire centers; only rate centers. Cox does not serve customers in any rate centers or wire centers other than those listed in Response No. 1.

- b. Are you capable of providing service in the designated areas where you are not currently providing service?**

No, there is no capability.

If not, how long would it take for you to prepare to provide service in those areas?

Cox would not be able to extend its service to customers outside the existing service area.

3. Using the list in Exhibit C, please identify the wire centers where your company currently advertises Lifeline service. Please list the various forms and frequency of the advertisement being used.

Cox advertises Lifeline service only in the Central Florida and Gulf Coast rate centers in which potential customers are serviceable; i.e., as listed in Response No. 1. In addition to the Lifeline information published on Cox's website, Cox has also completed a direct mailing advertising Lifeline during 2Q2017, and is in the planning stages for another direct mailing to be sent during the second half of 2017.

4. Please describe the method(s) by which you serve Lifeline customers in AT&T Florida's service area:

- a. Do you use UNEs purchased from AT&T Florida? No.
- b. Do you use resale purchased from AT&T Florida? No.
- c. Do you use your own facilities? Yes.

Cox, as a facilities-based CLEC, uses no UNEs or resold services for residential or Lifeline customers

- d. Do you use a combination of your facilities and AT&T Florida's? No.
There are no combinations of Cox and AT&T facilities utilized for retail residential service.
- e. Do you use other arrangements (please explain)? No.

Norcross, GA 30093-2253

Re: ETC Data Request For Docket No. 170082-TP – Request for relinquishment of partial eligible telecommunications carrier (ETC) status, by BellSouth Telecommunications LLC d/b/a AT&T Florida.

Dear Ms. DiCicco:

On April 7, 2017, AT&T Florida filed a petition with the Florida Public Service Commission to partially relinquish its eligible telecommunications carrier (ETC) designation. Pursuant to 47 U.S.C. §214 (e)(4), prior to permitting an ETC to relinquish its status in a service area, the state commission must “require the remaining eligible telecommunications carrier or carriers to ensure that all customers served by the relinquishing carrier will continue to be served”.

In AT&T Florida’s petition, your company has been identified as a designated ETC in the service area where AT&T Florida is requesting relinquishment of its ETC status. Therefore, in order to comply with federal requirements, we have attached a data request (Attachment A) which will assist the Commission in ensuring that all customers in AT&T Florida’s relinquishing service area will continue to be served. Also, attached is a copy of AT&T Florida’s petition for partial relinquishment of its ETC designation in Florida (Attachment B). Please review and respond to this data request by May 15, 2017.

Your company may avail itself of the statutory confidential provisions of Section 364.183, Florida Statutes, and Rule 25-22.006, Florida Administrative Code, if it believes it is necessary to comply with this data request.

If you have any questions, feel free to contact Sakina Deas at (850) 413-6504 or sdeas@psc.state.fl.us.

Sincerely,

Beth W. Salak
Director

CETC Data Request

In AT&T Florida's petition for Eligible Telecommunications Carrier (ETC) relinquishment, AT&T Florida provided a chart that identifies each Competitive Local Exchange Carrier ETC (CETC) designated in AT&T Florida's service area using a numerical ID code (Attachment B, Exhibit C). On page 7 of Exhibit C, AT&T Florida lists the numerical ID code used to identify each CETC. Please review Exhibit C and answer the following questions.

1. Please verify that your company is a designated ETC in the service areas that AT&T Florida has identified in Exhibit C.

Answer: Confirmed.

2. Are you currently providing service to customers in all of the identified areas? If no:

- a. Please identify any wire centers where your company is not currently serving customers.

Answer: Please see attached. Highlighted service areas indicate all service areas in which GCIOA serves customers. However, GCIOA is authorized to provide service in all ATT service areas.

- b. Are you capable of providing service in the designated areas where you are not currently providing service? If not, how long would it take for you to prepare to provide service in those areas?

Answer: Yes

3. Using the list in Exhibit C, please identify the wire centers where your company currently advertises Lifeline service. Please list the various forms and frequency of the advertisement being used.

Answer: GCIOA advertises, on a rotational basis, through local newspapers .

4. Please describe the method(s) by which you serve Lifeline customers in AT&T Florida's service area:

- a. Do you use UNEs purchased from AT&T Florida?

Answer: Yes

- b. Do you use resale purchased from AT&T Florida?

Answer: Yes

- c. Do you use your own facilities?

Answer: No

- d. Do you use a combination of your facilities and AT&T Florida's?

Answer: No

- e. Do you use other arrangements (please explain)?

Answer: No

TRACFONE WIRELESS, INC.'S RESPONSE TO DATA REQUEST

CETC Data Request

In AT&T Florida's petition for Eligible Telecommunications Carrier (ETC) relinquishment, AT&T Florida provided a chart that identifies each Competitive Local Exchange Carrier ETC (CETC) designated in AT&T Florida's service area using a numerical ID code (Attachment B, Exhibit C). On page 7 of Exhibit C, AT&T Florida lists the numerical ID code used to identify each CETC. Please review Exhibit C and answer the following questions.

- 1. Please verify that your company is a designated ETC in the service areas that AT&T Florida has identified in Exhibit C.**

AT&T Florida, a wireline carrier, identifies its service area by wire centers and exchanges. Exhibit C lists those wire centers and exchanges in which AT&T Florida seeks to relinquish its ETC designation. TracFone Wireless, Inc. ("TracFone") is a Commercial Mobile Radio Service ("CMRS") provider that serves Lifeline customers in Florida by reselling the wireless telecommunications services of T-Mobile and Verizon Wireless. TracFone is designated as an ETC throughout its service area in Florida. As a CMRS reseller, TracFone's Lifeline service area in Florida encompasses T-Mobile and Verizon Wireless's service areas.

TracFone defines its service area by relying on service area maps and coverage information identified by ZIP Code provided by its underlying carriers. TracFone's Lifeline service area map and a list of ZIP Codes where TracFone provides Lifeline service in Florida are attached as Exhibit 1. TracFone's underlying CMRS carriers do not define their service areas by wire centers and exchanges. Therefore, TracFone is not able to directly compare its service area to AT&T Florida's list of wire centers and exchanges. However, TracFone's Lifeline service area includes virtually all of Florida (as indicated by TracFone's service area map) and there are only four ZIP Codes in Florida that do not fall within TracFone's Lifeline service area.

2. **Are you currently providing service to customers in all of the identified areas? If no:**
- a. **Please identify any wire centers where your company is not currently serving customers.**
 - b. **Are you capable of providing service in the designated areas where you are not currently providing service? If not, how long would it take for you to prepare to provide service in those areas?**

For the reasons described above in the response to Data Request 1, TracFone is not able to identify its service area by wire center. Therefore, TracFone does not know whether it is currently providing Lifeline service to customers in the wire centers listed in Exhibit C. In the event that the Commission determines that there are wire centers listed in Exhibit C where TracFone is not currently serving customers, TracFone would not be capable of expanding its service area to serve any such wire centers because, as a reseller, TracFone's service area is defined by its underlying carriers' service areas. Therefore, it could only expand its service areas if its underlying network providers expanded their service areas.

3. **Using the list in Exhibit C, please identify the wire centers where your company currently advertises Lifeline service. Please list the various forms and frequency of the advertisement being used.**

TracFone advertises its SafeLink Wireless[®] Lifeline service throughout its service area in Florida. TracFone primarily relies on ongoing advertisements found on its website and other Internet sites (including Facebook and Google). TracFone also contacts eligible households via direct mail campaigns.

4. **Please describe the method(s) by which you serve Lifeline customers in AT&T Florida's service area:**

- a. **Do you use UNEs purchased from AT&T Florida?**

No.

b. Do you use resale purchased from AT&T Florida?

No.

c. Do you use your own facilities?

TracFone uses its own facilities to enroll customers and direct service requests to the company's underlying network providers. However, TracFone does not own network or transmission facilities.

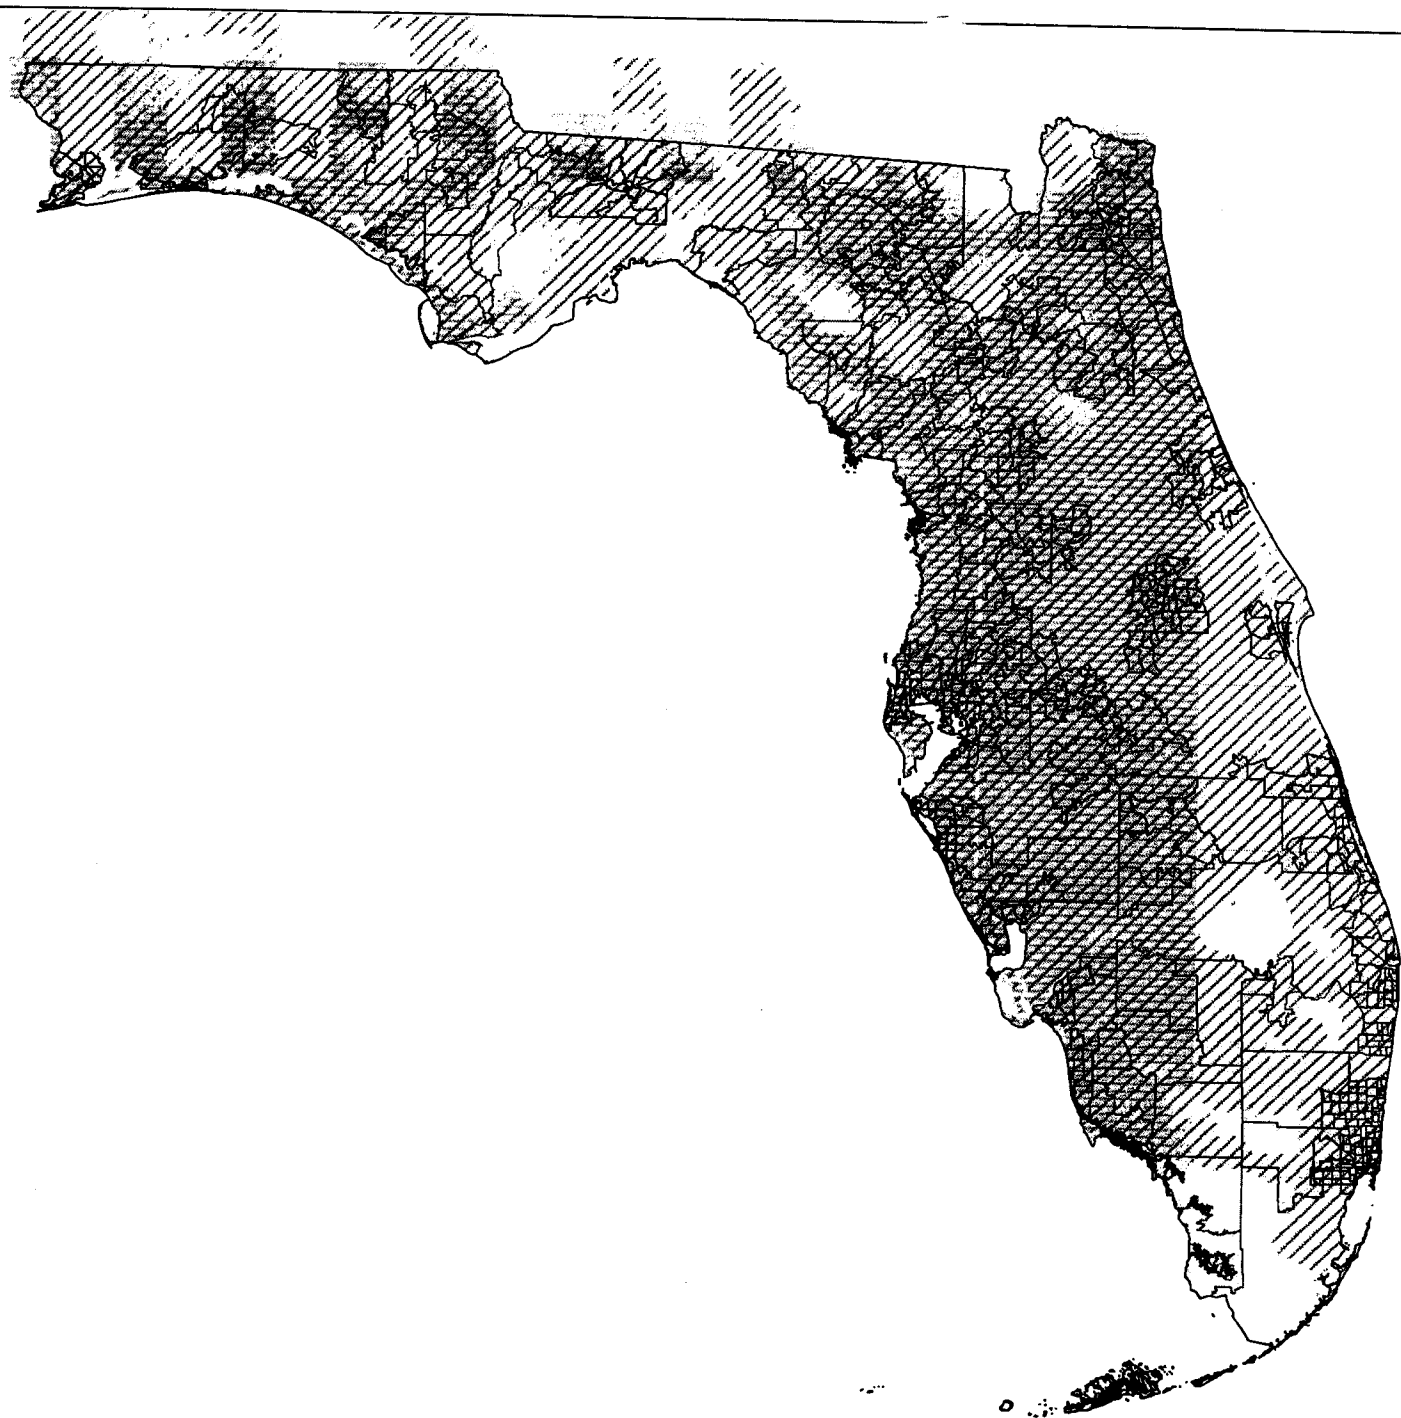

d. Do you use a combination of your facilities and AT&T Florida's?

See response to Data Request 4(c) above.

e. Do you use other arrangement (please explain)?

TracFone serves Lifeline customers in Florida by providing wireless telecommunications service which it obtains at negotiated wholesale rates from underlying licensed CMRS providers.

Re: Docket No. 170082-TP – Request for Partial Relinquishment of Eligible Telecommunications Carrier (ETC) Status, by BellSouth Telecommunications, LLC d/b/a AT&T Florida, FPSC Staff Data Request Responses of T-Mobile South LLC d/b/a T-Mobile

Dear Ms. Salak:

Attached are the responses of T-Mobile South LLC d/b/a T-Mobile (“T-Mobile”) to the Florida PSC Staff’s April 25, 2017, CETC Data Requests in connection with the above referenced docket. While T-Mobile is a wireless carrier not subject to the PSC’s jurisdiction under Chapter 364, Florida Statutes, T-Mobile appreciates the opportunity to voluntarily provide these responses to assist the Commission.

Please let me know if you have any questions regarding these responses.

Sincerely,

Berger Singerman LLP

Floyd R. Self

Docket No. 170082-TP – Request for Partial Relinquishment of Eligible Telecommunications Carrier (ETC) Status, by BellSouth Telecommunications, LLC d/b/a AT&T Florida
Responses of T-Mobile South LLC d/b/a T-Mobile

1. Please verify that your company is a designated ETC in the service areas that AT&T Florida has identified in Exhibit C.

Response #1: T-Mobile South LLC (hereinafter "T-Mobile") is a designated ETC in nearly all the exchanges listed in the Exhibit C provided by AT&T Florida. T-Mobile is not designated in the following exchanges that were included in Exhibit C:

FMTNALMT
JAY FLMA
MNSNFLMA
SYHSFLCC
VERNFLMA
YNTWFLMA

2. Are you currently providing service to customers in all of the identified areas? If no:
 - a. Please identify any wire centers where your company is not currently serving customers.
 - b. Are you capable of providing service in the designated areas where you are not currently providing service? If not, how long would it take for you to prepare to provide service in those areas?

Response(s) #2:

- a. T-Mobile, a facilities-based provider of commercial mobile radio service, serves customers throughout its ETC designated service area.
 - b. See Response to 2(a).
3. Using the list in Exhibit C, please identify the wire centers where your company currently advertises Lifeline service. Please list the various forms and frequencies of the advertisement being used.

Response #3: T-Mobile advertises the availability of, and charges for, its Lifeline service offerings using media of general distribution and other means as appropriate (e.g. targeted mail, community outreach, etc.) throughout its ETC designated service area in Florida consistent with applicable federal requirements.

4. Please describe the method(s) by which you service Lifeline customers in AT&T Florida's service area:
 - a. Do you use UNEs purchased from AT&T Florida?

Docket No. 170082-TP – Request for Partial Relinquishment of Eligible Telecommunications Carrier (ETC) Status, by BellSouth Telecommunications, LLC d/b/a AT&T Florida
Responses of T-Mobile South LLC d/b/a T-Mobile

- b. Do you use resale purchased from AT&T Florida?
- c. Do you use your own facilities?
- d. Do you use a combination of your facilities and AT&T Florida's?
- e. Do you use other arrangements (please explain)?

Response(s) #4:

- a. No, T-Mobile does not use UNEs purchased from AT&T Florida to serve its Lifeline customers in its designated service area in Florida.
- b. T-Mobile is not clear how AT&T Florida is defining "resale" in order to completely respond to this question. Notwithstanding, T-Mobile does not purchase any retail services from AT&T Florida to serve its Lifeline customers in its designated service area in Florida.
- c. T-Mobile is not clear how AT&T Florida is defining "own facilities" in order to completely respond to this question in the context of Lifeline customers and this matter. Notwithstanding, T-Mobile is a facilities-based provider in Florida and uses such facilities to service our Lifeline customers in its designated service area in the State.
- d. See response to 4(c).
- e. T-Mobile is not clear how AT&T Florida is defining "other arrangements" and is therefore unable to respond to this question.

CERTIFIED NO. 70060100000310989059

Virgin Mobile USA, L.P. d/b/a Assurance Wireless
Mr. Andy Lancaster
3065 Akers Mill Road SE, 7th Floor
Atlanta, GA 30339

Re: ETC Data Request For Docket No. 170082-TP – Request for relinquishment of partial eligible telecommunications carrier (ETC) status, by BellSouth Telecommunications LLC d/b/a AT&T Florida.

Dear Mr. Lancaster:

On April 7, 2017, AT&T Florida filed a petition with the Florida Public Service Commission to partially relinquish its eligible telecommunications carrier (ETC) designation. Pursuant to 47 U.S.C. §214 (e)(4), prior to permitting an ETC to relinquish its status in a service area, the state commission must "require the remaining eligible telecommunications carrier or carriers to ensure that all customers served by the relinquishing carrier will continue to be served".

In AT&T Florida's petition, your company has been identified as a designated ETC in the service area where AT&T Florida is requesting relinquishment of its ETC status. Therefore, in order to comply with federal requirements, we have attached a data request (Attachment A) which will assist the Commission in ensuring that all customers in AT&T Florida's relinquishing service area will continue to be served. Also, attached is a copy of AT&T Florida's petition for partial relinquishment of its ETC designation in Florida (Attachment B). Please review and respond to this data request by May 15, 2017.

Your company may avail itself of the statutory confidential provisions of Section 364.183, Florida Statutes, and Rule 25-22.006, Florida Administrative Code, if it believes it is necessary to comply with this data request.

If you have any questions, feel free to contact Sakina Deas at (850) 413-6504 or sdeas@psc.state.fl.us.

Sincerely,

A handwritten signature in black ink that reads "Beth W. Salak".

Beth W. Salak
Director

CETC Data Request

In AT&T Florida's petition for Eligible Telecommunications Carrier (ETC) relinquishment, AT&T Florida provided a chart that identifies each Competitive Local Exchange Carrier ETC (CETC) designated in AT&T Florida's service area using a numerical ID code (Attachment B, Exhibit C). On page 7 of Exhibit C, AT&T Florida lists the numerical ID code used to identify each CETC. Please review Exhibit C and answer the following questions.

1. Please verify that your company is a designated ETC in the service areas that AT&T Florida has identified in Exhibit C. Virgin Mobile/Assurance Wireless is a designated ETC in all but one service area.
2. Are you currently providing service to customers in all of the identified areas? If no:
 - a. Please identify any wire centers where your company is not currently serving customers. Virgin Mobile/Assurance Wireless is not serving customers in wire center FMTNALMT.
 - b. Are you capable of providing service in the designated areas where you are not currently providing service? If not, how long would it take for you to prepare to provide service in those areas? Virgin Mobile/Assurance Wireless is not currently capable of providing adequate service in FMTNALMT. It would take significant network enhancements in order to expand coverage to include FMNTALMT.
3. Using the list in Exhibit C, please identify the wire centers where your company currently advertises Lifeline service. Please list the various forms and frequency of the advertisement being used. Currently, our main form of advertising is via our website: www.assurancewireless.com and would be available in all wire centers. Additionally, we advertise the availability of our Lifeline services on a limited basis via direct mail.
4. Please describe the method(s) by which you serve Lifeline customers in AT&T Florida's service area:
 - a. Do you use UNEs purchased from AT&T Florida? No
 - b. Do you use resale purchased from AT&T Florida? No
 - c. Do you use your own facilities? As a wholly-owned subsidiary of Sprint, Virgin Mobile has beneficial use of the Sprint wireless network and, thus, provides services using its own facilities. All Virgin Mobile Lifeline customers are provided services through this network.
 - d. Do you use a combination of your facilities and AT&T Florida's? No, please see above.
 - e. Do you use other arrangements (please explain)? No, please see above.
