Subject: docket No. 20160101

To Whom it May Concern:

Since the rate increase for water and wastewater has been approved. Seminole County which accesses this water will now be paying for 70% of the increase. Seminole County has only 3 utilities that access this water out of the 16 who will be forced to pay higher rates. It would appear that this is discriminatory and certainly not reasonable. I would like an explanation of how this is fairly distributed, that the commission is supposed to be nondiscriminatory and reasonable.

Please respond,
Margo MacKenzie
