Subject: Water Rate Increase

We are appalled that your commission, charged with representing the average citizens of Seminole County, not wealthy people who have abilities to add hundreds of dollars every year to the Public Service Commission, must again face this enormous increase in our water bill. Who are you people?? How do you justify putting this burden on ordinary hard-working, and retired, citizens? I am basing these questions on " Utilities, Inc. Florida Docket No. 20160101 rate increase request" by you. We could all live with a ten or fifteen percent increase in our water bills, but this is unbelievable. Seriously, a 65.92% increase in wastewater??? How can you sleep at night, knowing that you are gouging people who are just trying to stay afloat? Hilary and Gerald Tucker, 134 W.
