Subject: Utilities, Inc. Florida Docket No. 20160101 rate increase request

Dear Public service Commissioners,

I am writing you concerning a very important item on the agenda this week, Utilities, Inc. Florida Docket No. 20160101 rate increase request. When I first was made aware of this months ago I honestly didn' even think it would get this far, with the attendance at the meeting and the amount of outrage I have heard. Please think about the people this will effect-on both sides of the issue. The customers of Seminole County could be asked to take on 70% OF THE INCREASE for this company. Overnight! While I'm fortunate enough to not be in the retired category yet I can't imagine the impact this would have on that part of our community. Not in my wildest dreams would I think this would be considered just.

On the flipside, the increase would be used to line the pockets of CEOs not even in this state and some not even in the USA! I have not seen a valid reason for this increase or for Seminole County to have to bear such a large burden. Does anyone do what's right anymore?
