Subject: Proposed Utilities Inc. Rate Increase

To whom it may concern,

I am writing to you as a resident of Seminole County, Florida that lives in an area that could soon be devastated by the proposed 130% rate increase by Utilities Inc. for our water service. Seriously? 130%? I am appalled of them even suggesting such an amount. Please let this letter serve as notice that I vehemently oppose this increase and consider it a crime to try to pass this ridiculousness.

Please vote against this proposal.

Sincerely,
Lisa A. Waller

Subject: Proposed rate increase for Utilities, Inc.

Dear Sir:

I am writing to object to the proposed 130% rate increase for Utilities, Inc., customers. This proposal is absurd! I do not understand how anyone in good standing could possibly believe this is a reasonable increase. I have been a resident of Seminole County for 45 years, and never have we experienced such an increase. This increase will cause hardships for many of Utilities, Inc. customers. and could have a long term affect for commissioners as well. I sincerely hope that the meeting held on Wednesday, August 3, will put this proposed outrageous increase to rest.

Sincerely,

Susan Willis

Please do not approve the rate increase for the water bill. This is an astronomical increase. I am for a gradual increase but 130% is way too much for people to afford. It is too drastic of an increase. Please do not approve.

Thank you for your time,
Brandy

I am writing via this email of our complete and utter disdain for the monumental rate increase under consideration for Utilities Inc in Seminole County, FL.

We are also completely distressed at the prospect that the Florida PSC is actually entertaining such a huge increase to us here in Seminole. This is usury at best and outright theft. Because this foreign based corporation chose to run their equipment into the ground and not do normal/timely updates & upgrades they now want to throw us under the bus to pay for other systems unrelated to our own here locally.

This is NOT RIGHT and it is your responsibility to protect us from this quasi Ponzi scheme of theirs.

Serve your Public!

Do not, under any circumstances, allow them to combine us all together. We do not think that is even legal in this circumstance.
