Re: Environmental Cost Recovery Clause
Docket No. 20170007-EI

Dear Ms. Stauffer:

Attached is Gulf Power Company's 2017 Estimated Actual Testimony and Exhibit to be filed in the above-referenced docket. The testimonies consist of the following:

1. Prepared direct testimony of Richard M. Markey.
2. Prepared direct testimony and exhibits of C. Shane Boyett.

Pursuant to the Order Establishing Procedure in this docket, electronic copies of Exhibits CSB-2 and CSB-3 will be provided to the parties under separate cover.

Sincerely,

A handwritten signature in blue ink that reads "Rhonda J. Alexander".

Rhonda J. Alexander
Regulatory, Forecasting and Pricing Manager

Gulf Power

1

GULF POWER COMPANY

2

Before the Florida Public Service Commission
Prepared Direct Testimony of Richard M. Markey
Docket No. 20170007-EI
Date of Filing: August 4, 2017

3

4

5 Q. Please state your name and business address.

6 A. My name is Richard M. Markey, and my business address is One Energy
7 Place, Pensacola, Florida, 32520.

8

9 Q. By whom are you employed and in what capacity?

10 A. I am employed by Gulf Power Company as the Director of Environmental
11 Affairs.

12

13 Q. Mr. Markey, will you please describe your education and experience?

14 A. I graduated from Oklahoma State University, Stillwater, Oklahoma, in
15 1983 with a Bachelor of Science degree in Geology and a minor in
16 Petroleum Engineering Technology. I also hold a Master's degree in Civil
17 Engineering from Florida State University, Tallahassee, Florida. Prior to
18 joining Gulf Power, I worked in the Oil and Gas industry, Environmental
19 Consulting and Florida Department of Environmental Regulation. In
20 October 1994, I joined Gulf Power Company as a Geologist and have
21 since held various positions with increasing responsibilities such as Air
22 Quality Engineer, Supervisor of Land & Water Programs, and Manager of
23 Land and Water Programs. In 2016, I assumed my present position as
24 Director of Environmental Affairs.

25

- 1 Q. What are your responsibilities with Gulf Power Company?
- 2 A. As Director of Environmental Affairs, my primary responsibility is
3 overseeing the activities of the Environmental Affairs area to ensure the
4 Company is, and remains, in compliance with environmental laws and
5 regulations, i.e. both existing laws and such laws and regulations that may
6 be enacted or amended in the future. In performing this function, I am
7 responsible for numerous environmental activities.
- 8
- 9 Q. Mr. Markey, what is the purpose of your testimony?
- 10 A. The purpose of my testimony is to support Gulf Power Company's
11 Environmental Cost Recovery Clause (ECRC) estimated true-up for the
12 period January through December 2017. This true-up is based on six
13 months of actual data and six months of estimated data.
- 14
- 15 Q. Mr. Markey, please compare Gulf's recoverable environmental capital
16 costs included in the estimated true-up calculation for the period January
17 2017 through December 2017 with the approved projected amounts.
- 18 A. As reflected in Mr. Boyett's Schedule 6E, the recoverable capital costs
19 approved in the original projection total \$163,184,721, as compared to the
20 estimated true-up amount of \$166,467,793. This difference results in a
21 variance of \$3,283,072 or 2.0%.
- 22
- 23 Q. Are there any factors that impact multiple capital projects?
- 24 A. Yes. The implementation of the Stipulation and Settlement Agreement,
25 approved by order of the Commission in consolidated Docket Nos.

1 20160186-EI and 20160170-EI, impacts all components of Gulf's
2 recoverable capital costs. Mr. Boyett discusses the details concerning
3 these changes in his estimated true-up testimony. After taking the
4 Stipulation and Settlement Agreement changes totaling \$2,170,823 into
5 consideration, there is a variance of approximately \$1,112,249 that is
6 largely attributed to four capital projects: 1) Air Quality Compliance
7 Program \$1,230,843; 2) Crist 6 & 7 Low NOx Burners, \$291,634; 3)
8 Effluent Limitations Guidelines (\$353,313); and 4) Crist FDEP Agreement
9 (\$55,618). The variances attributed to these programs will be discussed
10 below.

11

12 Q. Please explain the capital variance of \$291,634 or 17.5% reflected in Low
13 NOx Burners, Crist 6 & 7 (Line item 1.4).

14 A. The line item variance is due to the replacement of Unit 7's band gas
15 canes on the Low NOx burners with new retractable gas gun burning
16 technology. The original gas canes have become technologically
17 obsolete.

18

19 Q. Please explain the capital variance of (\$55,618) or (0.5%) reflected in the
20 Crist FDEP Agreement for Ozone Attainment Program (Line Item 1.19).

21 A. This variance is primarily due to lower expenditures for Plant Crist's Unit 7
22 Selective Catalytic Reduction (SCR) catalyst replacement than budgeted.

23

24 Q. Please explain the capital variance of \$1,230,843 or 0.9% reflected in the
25 Air Quality Compliance Program (Line Item 1.26).

1 A. The line item variance is due to a change in assessed value and millage
2 rates used to calculate property taxes for Plant Daniel scrubbers in the
3 State of Mississippi and the repairs to Plant Crist's gypsum pond. The
4 change in assessed value and millage rate contributes approximately
5 \$1,001,000 to the variance. The remainder of the variance is primarily due
6 to a repair of the liner in Plant Crist's gypsum pond.

7

8 Q. Please explain the capital variance of (\$353,313) or (48.2%) reflected in
9 the Effluent Limitations Guidelines (ELG) (Line Item 1.29).

10 A. In April 2017, the Environmental Protection Agency (EPA) published a
11 notice in the Federal Register that stayed the compliance dates for
12 meeting the ELG for bottom ash transport water, as well as for fly ash
13 transport water, flue gas desulfurization wastewater, flue gas mercury
14 control wastewater and gasification wastewater. In April 2017, the
15 Department of Justice also filed a motion with the 5th Circuit to hold the
16 ELG litigation in abeyance for 120 days while the Agency undertakes
17 reconsideration of the rule. At the conclusion of the 120-day period, EPA
18 is expected to announce which portions of the rule, if any, that it seeks to
19 have remanded to the Agency for further rulemaking.

20 Gulf's 2017 ELG compliance projects are associated with the new
21 Plant Crist bottom ash handling and wastewater treatment systems. Both
22 projects were placed on hold after EPA announced reconsideration of the
23 rule. Gulf was in the process of completing construction of two
24 underground injection wells at Crist that will be used for ELG compliance.
25 Gulf has completed drilling of the wells and will complete the necessary

1 site stabilization associated with this activity. Gulf will cease project
2 related activities until after ELG is resolved. Gulf was in the preliminary
3 engineering and design phase of the Plant Crist bottom ash handling
4 system at the time the reconsideration was announced. The bottom ash
5 project has been placed on hold until EPA provides clarification on future
6 regulatory requirements. These project delays have resulted in the
7 variance shown for Line Item 1.29.

8

9 Q. How do the estimated/actual 2017 O&M expenses compare to the original
10 2017 projections?

11 A. Mr. Boyett's Schedule 4E reflects that Gulf's recoverable environmental
12 O&M expenses for the current period are now estimated at \$39,672,854
13 as compared to \$61,760,900, which was the amount projected in the 2017
14 Projection Filing, creating a variance of (\$22,088,046) or (35.8%). I will
15 address three O&M projects and programs that contribute to a significant
16 portion of this variance: FDEP NOx Reduction Agreement, Air Quality
17 Compliance Program, and Coal Combustion Residual.

18

19 Q. Please explain the O&M variance of \$333,205 or 37.1% in FDEP NOx
20 Reduction Agreement (Line Item 1.19).

21 A. The FDEP NOx Reduction Agreement includes the cost of anhydrous
22 ammonia, urea, air monitoring, and general operation and maintenance
23 expenses for activities undertaken in connection with the Plant Crist FDEP
24 Agreement related to Ozone Attainment. This variance is primarily due to
25 Plant Crist's Unit 7 SCR running at a higher utilization than projected.

- 1
- 2 Q. Please explain the O&M variance (\$869,768) or (3.6%) in the Air Quality
- 3 Compliance Program, (Line Item 1.20).
- 4 A. The Air Quality Compliance Program currently includes O&M expenses
- 5 associated with the Plant Crist scrubber, the Crist Unit 6 SCR, and the
- 6 Plant Daniel scrubbers, as well as Plant Scherer's baghouse, MATS
- 7 emissions monitoring equipment, SCR, and scrubber. More specifically,
- 8 this line item includes the cost of limestone and ammonia, along with
- 9 general operation and maintenance activities included in Gulf's Air Quality
- 10 Compliance Program. The line item variance is primarily due to scrubber
- 11 expenses, which vary with utilization of Gulf's coal units, being lower than
- 12 projected.
- 13
- 14 Q. Please explain the variance of (\$21,315,243) or (77.7%) in Coal
- 15 Combustion Residual (Line Item 1.23).
- 16 A. The Coal Combustion Residual (CCR) line item includes O&M expenses
- 17 related to the regulation of Coal Combustion Residuals by the United
- 18 States Environmental Protection Agency (EPA) and the Florida
- 19 Department of Environmental Protection (FDEP). For Gulf's generating
- 20 plants, these regulatory compliance obligations are pursuant either to the
- 21 CCR rule adopted last year or to permit requirements added by the State
- 22 through the National Pollutant Discharge Elimination System (NPDES)
- 23 permits issued for each of Gulf's generating facilities. Approximately
- 24 \$23.4 million of the variance is attributable to delays in the Plant Scholz
- 25 pond closure. The closure schedule shifted due to permitting delays. Gulf

1 received the substantial revision to the NPDES permit on May 18, 2017,
2 and it is now moving forward with the initial phases of the pond closure
3 activities. Partially offsetting the delay in the Plant Scholz pond closure is
4 approximately \$2.5 million of expenses associated with the Plant Smith
5 pond closure.

6

7 Q. Does this conclude your testimony?

8 A. Yes.

Gulf Power

1 GULF POWER COMPANY

2 Before the Florida Public Service Commission

3 Prepared Direct Testimony

4 C. Shane Boyett

5 Docket No. 20170007-EI

6 Date of Filing: August 4, 2017

7 Q. Please state your name, business address and occupation.

8 A. My name is Shane Boyett. My business address is One Energy Place,
9 Pensacola, Florida 32520. I am the Regulatory and Cost Recovery Manager
10 for Gulf Power Company.

11

12 Q. Please briefly describe your educational background and business
13 experience.

14 A. I graduated from the University of Florida in Gainesville, Florida in 2001 with
15 a Bachelor of Science degree in Business Administration. I also hold a
16 Master of Business Administration from the University of West Florida in
17 Pensacola, Florida. I joined Gulf Power in 2002 as a Forecasting Specialist
18 and have held several positions with increasing responsibility prior to my
19 current position of Regulatory and Cost Recovery Manager. My
20 responsibilities include supervision of tariff administration, calculation of cost
21 recovery factors, and the regulatory filing function of Gulf Power Company.

22

23 Q. What is the purpose of your testimony?

24 A. The purpose of my testimony is to present the estimated true-up amount for
25 the period January 2017 through December 2017 for the Environmental Cost
 Recovery Clause (ECRC). I will also discuss the impact of implementing the
 Stipulation and Settlement Agreement (Settlement Agreement) approved by

1 the Commission in Order No. PSC-2017-0178-S-EI in consolidated Docket
2 Nos. 20160186-EI and 20160170-EI dated May 16, 2017.

3

4 Q. Have you prepared any exhibits that contain information to which you will
5 refer in your testimony?

6 A. Yes, I am sponsoring two exhibits. My first exhibit consists of nine schedules
7 which are Gulf's environmental cost recovery estimated true-up schedules.
8 My second exhibit contains the calculation of the Scherer/Flint credit, as
9 defined later in my testimony, in accordance with provisions of the
10 Settlement Agreement. Both exhibits were prepared under my direction,
11 supervision, or review.

12 Counsel: We ask that Mr. Boyett's exhibits
13 be marked as Exhibit No. _____(CSB-2)
14 and Exhibit No. _____(CSB-3).

15

16 Q. Have you verified that, to the best of your knowledge and belief, the
17 information contained in these documents is correct?

18 A. Yes, I have.

19

20 Q. What has Gulf calculated as the estimated true-up for the January 2017
21 through December 2017 period to be addressed in 2018 ECRC factors?

22 A. The estimated true-up for the current period is an over-recovery of
23 \$11,475,260 as shown on Schedule 1E of Exhibit CSB-2. This amount is
24 based on six months of actual data and six months of estimated data. It will
25 be added to the 2016 final true-up under-recovery amount of \$3,262,290.

1 The total net true-up over-recovery of \$8,212,969 will be addressed in Gulf's
2 proposed 2018 ECRC factors. The detailed calculations supporting the
3 estimated true-up for 2017 are contained in Schedules 2E through 8E of
4 Exhibit CSB-2.

5

6 Q. Please describe Schedules 2E and 3E of your Exhibit CSB-2.

7 A. Schedule 2E shows the calculation of the estimated over-recovery of
8 environmental costs for the period January 2017 through December 2017.

9 Schedule 3E of this exhibit is the calculation of the interest provision on the
10 average true-up balance. This same method of calculating interest is used in
11 the Fuel Cost Recovery and Purchased Power Capacity Cost Recovery
12 clauses.

13

14 Q. Please describe Schedules 4E and 5E of your Exhibit CSB-2.

15 A. Schedule 4E compares the estimated/actual O&M expenses for the period
16 January 2017 through December 2017 to the projected O&M expenses
17 approved by the Commission in Docket No. 20160007-EI. Schedule 5E shows
18 the monthly O&M expenses by activity, along with the calculation of
19 jurisdictional O&M expenses for the current recovery period. Emission
20 allowance expenses and the amortization of gains on emission allowances are
21 included with O&M expenses. Gulf Witness Markey describes the reasons for
22 the expected variances in O&M expenses in his estimated/actual testimony.

23

24

25

- 1 Q. Please describe Schedules 6E and 7E of your Exhibit CSB-2.
- 2 A. Schedule 6E for the period January 2017 through December 2017 compares
3 the estimated/actual investment-related recoverable costs to the projected
4 amount approved in Docket No. 20160007-EI. The recoverable costs
5 include the return on investment, depreciation and amortization expense,
6 dismantlement accrual, and property taxes associated with each
7 environmental capital project for the current recovery period. Recoverable
8 costs also include a return on working capital associated with emission
9 allowances and a return on the unamortized balance of the regulatory asset
10 associated with the retirement of Smith Units 1 and 2 established by
11 Commission Order No. PSC-2016-0361-PAA-EI in Docket No. 20160039-EI
12 dated August 29, 2016. Mr. Markey discusses variances in recoverable
13 capital costs related to environmental project activities in his estimated/actual
14 testimony. The difference between the total recoverable capital costs
15 variance of \$3,283,072 as shown on my Schedule 6E and the total variance
16 of \$1,112,249 discussed by Mr. Markey in his testimony is \$2,170,823. The
17 resulting difference is explained by an increase in the weighted average cost
18 of capital (WACC), partially offset by a reduction in dismantlement expense
19 for the period. Schedule 7E provides the monthly recoverable revenue
20 requirements associated with each project, along with the calculation of the
21 jurisdictional recoverable revenue requirements.
- 22
- 23 Q. Please describe Schedule 8E of your Exhibit CSB-2.
- 24 A. Schedule 8E includes 34 pages that provide the monthly calculations of
25 recoverable costs associated with each capital project for the current

1 recovery period. As stated earlier, these costs include return on investment,
2 depreciation and amortization expense, dismantlement accrual, property
3 taxes, return on working capital associated with emission allowances and
4 return on unamortized balance of the Smith 1 and 2 regulatory asset. Pages
5 1 through 29 of Schedule 8E show the investment and associated costs
6 related to capital projects, while pages 30 through 33 show the investment
7 and return related to emission allowances, and page 34 shows the costs
8 related to the regulatory asset for retired Plant Smith Units 1 and 2.

9

10 Q. What capital structure and return on equity were used to develop the rate of
11 return used to calculate the revenue requirements as shown on Schedule 9E
12 of Exhibit CSB-2?

13 A. Consistent with Commission Order No. PSC-2012-0425-PAA-EU dated
14 August 16, 2012, in Docket No. 20120007-EI, the capital structure used in
15 calculating the rate of return for recovery clause purposes for January 2017
16 through March 2017 is based on the WACC presented in Gulf's May 2016
17 Earnings Surveillance Report. For April 2017 through December 2017, the
18 rate of return used is the WACC established by specific terms in the
19 Settlement Agreement. The WACC for both periods includes a return on
20 equity of 10.25 percent.

21

22 Q. Have you appropriately integrated the provision of the Settlement Agreement
23 related to Plant Scherer Unit 3?

24 A. Yes. Gulf has integrated 100 percent of the environmental-related
25 investment and expenses related to the Company's ownership in Plant

1 Scherer Unit 3 (Scherer 3) into ECRC. As reflected in Exhibit CSB-3, I have
2 calculated the incremental revenue requirements related to the portion of
3 Scherer 3 that continues to be committed to a wholesale customer through a
4 long-term contract, which will expire in December 2019. This adjustment
5 (Scherer/Flint credit) is calculated in accordance with the provisions in the
6 Settlement Agreement, resulting in ECRC being revenue-neutral regarding
7 the incremental inclusion of Scherer 3 investment and expenses.

8

9 Q. Mr. Boyett, does this conclude your testimony?

10 A. Yes.
